

JOE HUDSPETH and wife have just returned from a 10-day trip to the Bahama Islands which was provided for winners of a recent sales campaign by a major appliance manufacturer. They were among scores of appliance dealers and their wives who were awarded the trip.

"The islands are a beautiful sight," declared Joe, "but when you've seen them you have little else to make you want to remain there."

Owner of the H. & M. Tire and Appliance Store in Hamlin said the recent strife among leaders of the islands has caused tourists to be afraid to go there—and the tourist business is a big part of the economy of the vacationing islands.

As a sidelight of observances while he was in the islands, Joe said a number of years ago scores of mongooses were imported to the islands to kill out the snakes that made the islands unsafe. Now the snakes are gone, but the mongooses have become major depredators, killing chickens and other small domestic animals and fowls.

HAMLIN YOUNGSTERS of today know the ways of the world better than most of us give them credit for. For example...

While his birthday party was being planned, little Donald was asked for a list of the friends he would like to invite to the party.

"I want Auntie Mills, Grandpa Smith, Uncle Dick and Grandma Jones, and..."

"But wait a minute, Donald. Every one of those you have mentioned is an older person!" said mother.

"Well," replied Donald, "they're the only ones that ever seem to have any money."

H. M. BAGGARLY, editor of The Hamlin Herald, is one of the few bachelor publishers of the state. He is the subject of considerable comment and some ribbing by his fellow publishers. He recently had this to say in his Country Editor column of The Herald:

It's a funny thing! Every time one bumps into a fellow publisher, either at press conventions or in one of their offices, one has to listen to a long recital of the joys of married life; what all those who haven't taken the step are missing; how much more economical it is to eat at home; how useful a wife is around a newspaper office, enabling the publisher to have more free time.

They say that wives collect all delinquent accounts, write society news and read proofs.

So anxious are these fellows that no one be deprived of this life of wedded bliss that they become helpful little cupids as they arrange for introductions and offer to pay for marriage licenses.

But from some of the stuff they write one gathers that their enthusiasm is not motivated altogether by the alleged fact that "two can live cheaper than one." Their writings sound more like "misery loves company."

Take Ben Ezzell, our ultra conservative newspaper friend at Canadian, for example. Ben has a wife and a back-yard full of kids.

Week before last he asked in his column, "Why is it that when a woman tells her doctor she is all tired out, he immediately looks at her tongue?"

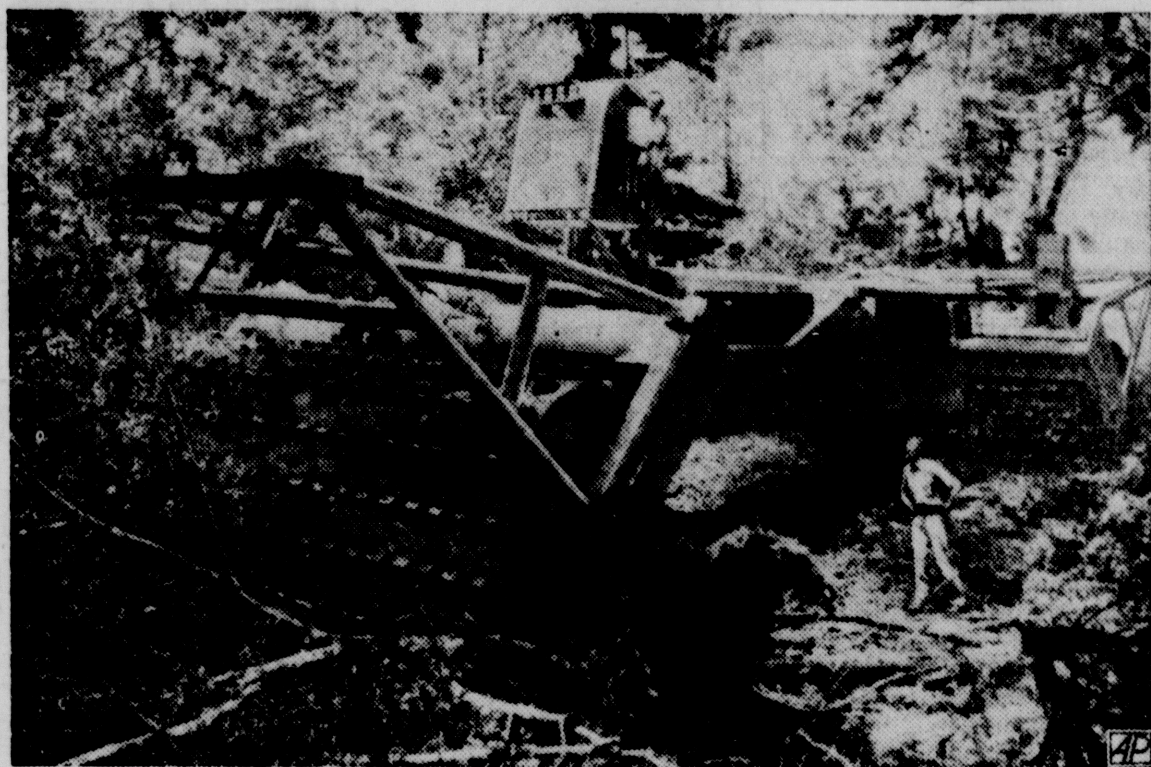

Then last week he opined, "If you have half a mind to get married, go ahead and do it. That's all it takes."

It would appear that much of the free advice we receive these days is nothing but Republican propaganda.

IT WAS TOLD of Oliver Wendell Holmes that he was one day strolling on the beach near his summer home when he began chatting with a little girl who was playing in the sand. The child soon slipped her hand in his and walked with him. By and by she said, "I'll have to go home now."

"Good-bye, my dear," said Dr. Holmes. "And when your mother asks you where you have been, tell her you have been walking with Oliver Wendell Holmes."

"And when your folks ask you where you have been," said the child, "tell them you were walking with Mary Susanna Brown."

EARTH CLEARING MACHINE DEMONSTRATION—A giant earth clearing machine whose developers say is capable of clearing jungles by yanking out trees by their roots and smashing them into splinters, is shown during a demonstration at Longview. Built by R. G. Le-Tourneau, Inc., and labeled the "tree crusher," the machine can cut a path 20 feet wide and clear an acre of land every 15 minutes. The machine is expected to be of great value in areas such as Africa and South America.

Early Returns Indicate Huge Crowd Due for Homecoming

More Ex-Students Being Contacted For Homecoming

A few return postal cards from former students of Hamlin High School have been received by officials of the Hamlin Ex-Students Association, sponsoring organization for the third annual homecoming, indicating that the response this year to the invitation may be good.

President Joe Ford of the association said this week that plans are going forward for entertaining a record number of former students.

Complete class rolls for graduates since 1912 have been made, and efforts of members of these groups to get names and addresses of the members have met with much success. However, whereabouts of many of the earlier classes still are unknown. Former HHS students who may be able to assist in locating these are asked to contact Mrs. Jo Riddle, secretary of the association.

The homecoming, scheduled for Friday and Saturday, October 18 and 19, will be featured by entertainment features, get-togethers and programs.

As part of the homecoming celebration, present high school students will not be overlooked. Women of the First Baptist Church will act as hostesses Friday night after the grid game for members of the Pied Piper football team and other high school students at a rally on the lawn of the church, across the street from the high school. Refreshments will be served to attendees.

Services Continue at First Methodist Meet

Good sized crowds have been attending the revival services at the First Methodist Church, declare church leaders. The services will continue through Sunday.

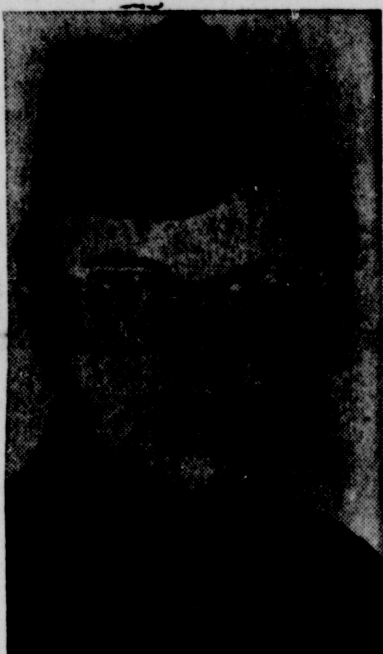

Doing the preaching is the pastor, Rev. Edmund W. Robb. In charge of the music are Rev. and Mrs. Oran Smith of Throckmorton. Services are held at 7:00 a. m. and 7:30 p. m.

16 Bales of Cotton Ginned by Hamlin

Cotton continued to come in by degrees this week as the big crop begins to gradually open. Sixteen bales had been ginned by the Hamlin Farmers Cooperative Gin through Tuesday, according to Dr. Fletcher, manager.

Fletcher said some of the early cotton was badly tinted, but he looked for the quality to improve as the season progresses.

Government loan for 15-16 inch middling cotton is 31.04 cents. This will be the grade of most Hamlin area cotton this year, said Fletcher.

RECENTLY completing eight weeks of basic training at the Women's Army Corps Center at Fort McClellan, Alabama, was WAC Private Gloria L. Hulsey (above), daughter of J. F. Hulsey of Hamlin.

More Than 8,000 Swims Recorded At Pool in Season

Total of 8,040 swims were recorded the past season at the Hamlin City Park swimming pool, according to tabulations released this week by B. V. Newberry, manager of the pool under contract with the Hamlin Foundation, builder of the unit.

Total income of the pool project from daily swims, swimming lessons, private parties, punch tickets and concessions amounted to \$2,622.30.

Total expenses included: Labor and life guards, \$1,476.09; supplies, \$216.45; electricity, \$302.75; water, City of Hamlin, \$122.92; telephone, \$27.75.

The pool was operated for 23 days in June for total swims of 2,940 and grossing \$1,047.30, with an average of 128 swims per day. July operated 31 days for total of 3,074 swims for gross of \$886.65, with average of 99 swims per day. During August and the first two days of September the pool recorded 2,026 swims for a gross of \$688.35, with an average of 65 swims per day.

Daily average swims for the season were 97.

Gloria Hulsey Takes Basic WAC Training

WAC Private Gloria L. Hulsey, daughter of J. F. Hulsey of Hamlin, recently completed eight weeks of basic training at the Women's Army Corps Center at Fort McClellan, Alabama.

Private Hulsey was graduated from Hamlin High School in 1955 and attended Abilene Christian College and Texas' Woman's College at Denton.

Aspermont Rodeo To Attract Area Fans on Week-End

Among the scores of attendants scheduled to be in Aspermont this week-end for the annual fall rodeo sponsored by the Stonewall Rodeo Association will be many fans of the Hamlin territory. The event opens Thursday night and will repeat on Saturday night.

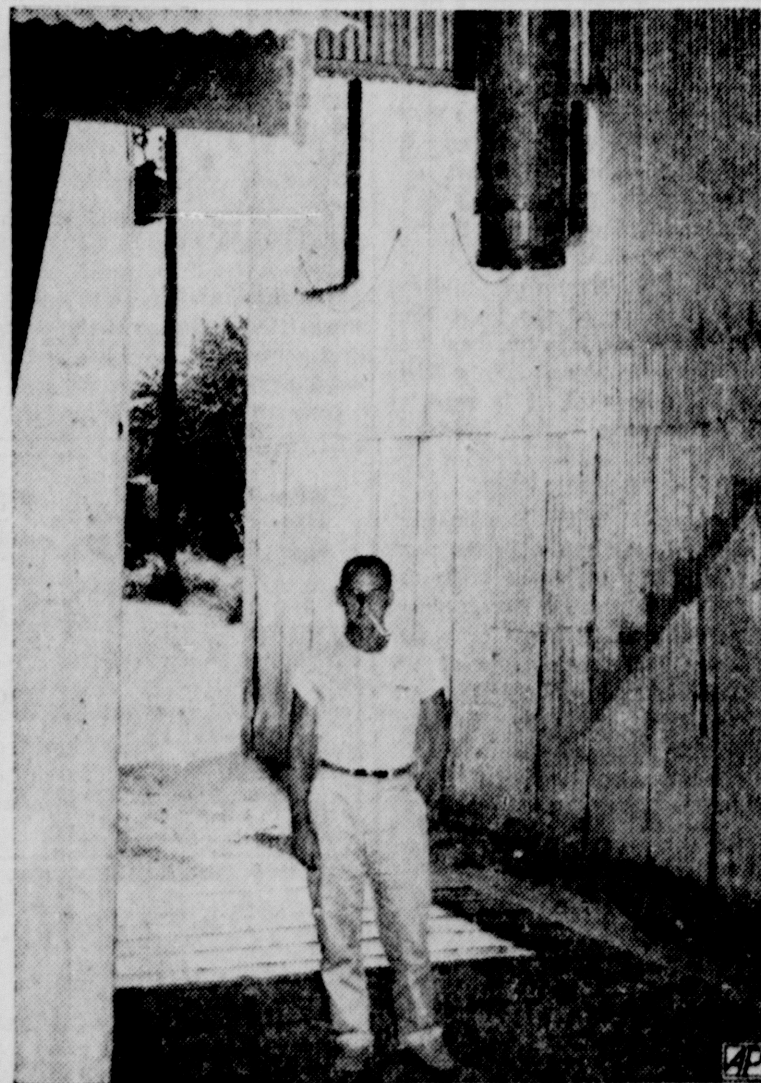

Stock for the two programs will be supplied by Morgan Smith of Fort Worth.

N. A. Pitcock, president of the association, said the rodeo bill would include steer wrestling, bull riding, bareback and saddle bronc riding, calf roping, ribbon roping and girls' barrel races.

Also there will be open and novice cutting horse contests. Eliminations in both will be held this (Thursday) morning beginning at 10:00 o'clock, Pitcock said.

Contestants will compete for all entrance fees. Entrance deadline is 12:00 o'clock noon Thursday, except for the cutting horse contest, which will be 9:00 a. m.

Performances will begin at 8:00 o'clock each of the two nights. Because of conflict with the football schedule the rodeo will not be conducted on Friday night, Pitcock said.

OFFERS TO GIVE GIN AWAY—Jack B. Jamison of Wichita Falls stands beside his cotton gin which he has offered to give to a chartered cooperative "in appreciation of patronage over the past 45 years." The gin, long a landmark in Wichita Falls, was established by Jamison's father.

Midwest Electric Coop Will Erect New Roby Offices

Bids for construction of the new Midwest Electric Cooperative office building will be opened at 8:00 p. m. next Thursday evening, October 3, according to the coop manager, Johnnie Ammons of Roby.

Ammons said the bids would be opened in the present office building on that date in the presence of the board of directors, architects and the coop's legal advisor, Howard Davidson, Lubbock attorney. It is expected that a contract will be let on that date, Ammons said. Twelve firms had already drawn plans and specifications for the purpose of making bids, he said.

The new office building will be brick and tile, with a total of 4,450 square feet of floor space. It will have a total complement of 12 rooms plus halls, storage areas, lounge and rest rooms.

Location is to be west of the present site, facing north on the south side of the Roby-Snyder highway.

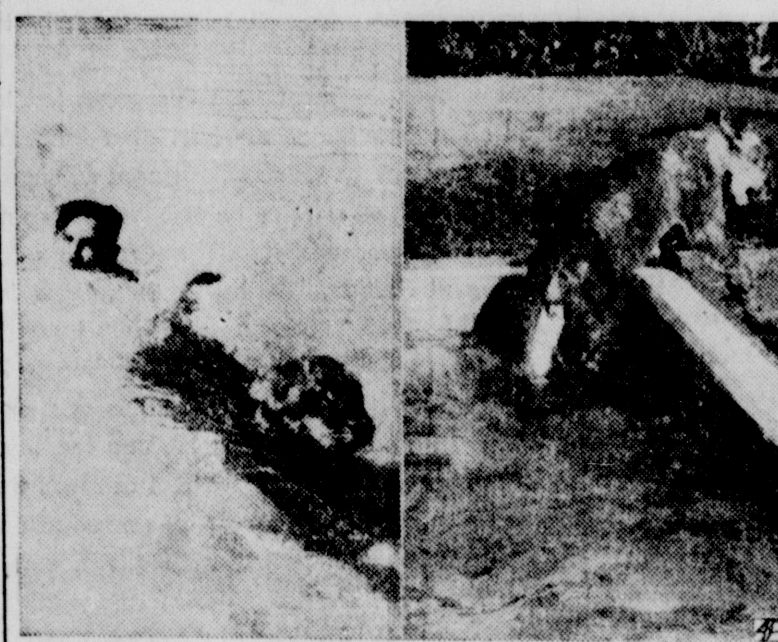

Midwest serves rural areas in eight counties of this section, including Fisher, Stonewall and Jones Counties.

Slight Decline Shown In Attendance at City Sunday Schools

Slight decline in total attendance at Sunday Schools of Hamlin was recorded Sunday in comparison with the previous week. The 1,223 total was 53 more than the year ago total of 1,170, however.

Attendance records for September 22, September 15 and a year ago, by churches, follow:

Churches	Sep. 22	Sep. 15	Year Ago
First Baptist	401	406	389
No. Cen. Baptist	78	79	82
Oak Gr. Col. Baptist	39	60	54
Mexican Baptist	44	38	42
Cr. of Nazarene	73	90	65
United Pentecostal	—	—	—
First Methodist	205	209	206
Foursquare Gospel	66	66	46
Faith Methodist	43	40	36
Sunset Baptist	46	56	46
Assembly of God	—	—	—
Church of Christ	174	146	150
Calvary Baptist	54	58	54
Totals	1223	1254	1170

LION LIKES SWIMMING—Sampson, a 10-month-old lion cub owned by Kent Baltzell of San Antonio, takes to the water like a fish. Demonstrating how he can paddle about he swims away from his master (left) and after the swim climbs from the pool.

Hamlin Will Be Host To Firemen of Area

Members of the Hamlin Volunteer Fire Department are already making arrangements for entertaining the Mid-West Texas Firemen's Association when they meet at Hamlin Thursday, October 10 in semi-annual convention.

Badges and programs for the gathering already have been produced. Arrangements are in charge of Ed Branscum and Theo

Murphree, according to Bryant Conner, Hamlin fire chief.

The convention will open with registration of attendants Thursday morning at 10:00 o'clock at the fire station.

Program will begin at 1:30 at the Ferguson Theater. Main address of the meeting will be by O. A. Kimbrough, chief of Dyes Air Force Base in Abilene. Feature activity of the day will be the races for drill teams of the association Thursday afternoon on Southwest Third Street, west of the bank.

A picnic feed will be served to attendants at 6:00 o'clock at the Hamlin City Park.

A dance at the I. R. Witt cabins at Hamlin West Lake beginning at 7:30 o'clock.

WORKS, TOO.

The fancy questionnaire which a household appliance company used to survey Iowa housewives brought equally fancy replies.

To the question, "What make of garbage disposal unit do you use?" one woman wrote, "Four hogs."

Control of Brush To Be Featured in Field Day at Spur

Hamlin area farmers and ranchers will be among the scores of regional people attending a brush control field day next Friday, October 4, the Texas Agricultural Experiment Station at Spur.

The program will begin at 9:30 a. m. at the Spur station and will consist of viewing and discussing different methods of controlling mesquite including aerial application of chemicals, root plowing, root plowing and seeding to range grasses, individual treatment of trees and combinations of chaining and aerial application of chemicals. Control of shinnery oak and yucca by chemicals and root plowing, and seeding will also be discussed.

Other highlights will include discussion of grazing trials conducted on range land where control of mesquite, water spreading, pitting, listing and other range improvement practices have been used. Visitors will also have the opportunity to see grass seeding trials and the grass seed production nursery. The field day will end following a tour of the brush control work on the Pitchfork Ranch.

For those who wish to stay overnight, room reservations can be requested by writing the El Patio Motel at Spur. Lunch will be served by a catering service at \$1 per person.

Game Night Slated At Neinda Saturday

First in the series of new year community gatherings at Neinda will be conducted Saturday night at the community house, it is announced by community leaders. Games will be featured at the get-together, scheduled to begin at 7:30 o'clock. Everybody is invited.

Refreshments of sandwiches and drinks will be served at the conclusion of the games. "Come on, everyone, let's have fun," urges Lois Wheat, reporter for the affair.

Caravan Will Go to Rotan Game Friday

Another caravan for football fans who will go tomorrow (Friday) night to the Hamlin-Rotan game being played at Rotan is being organized under sponsorship of the Pied Piper Booster Club, according to Curly Haynes, president of the club. Boosters will assemble their cars in front of the high school building, where high school girls will decorate them with the school colors, then they will proceed in a body to Rotan.

Widows of Club Founders Also to Be Given Honors

Charter members and widows of charter members of the Hamlin Rotary Club will be honored this (Thursday) evening at the thirtieth anniversary of the local club being observed at a ladies' night at the Primary School cafeteria.

Besides the charter members of the club that now reside elsewhere, and widows of the charter members, a number of other invited guests will be among the attendants.

The celebration, which is expected to attract more than 100 Rotarians, their wives and guests, is being arranged for by a committee headed by Tommy Davis.

Entertainment feature of the evening will be the presentation of Lucille Gerber of Abilene, talented reader and impersonator, who will present several numbers.

The cafeteria is being appropriately decorated for the occasion, using club colors and flowers in profusion.

No regular weekly luncheon meeting of the Hamlin Rotary Club was held Wednesday noon of this week in lieu of the ladies' night affair, said President Gene Prewitt.

Outstanding Leaders To Attend County Farm Bureau Session

Two outstanding Farm Bureau leaders, Billy Joe Guest, regional director, and Ed Cumble, district field man, will be present for the Jones County Farm Bureau annual meeting, which will be held Monday night, September 30, in the Anson High School auditorium.

Six new directors will be elected and the county resolutions will be read and adopted at this session. Three valuable door prizes will be given away to the lucky members whose names are drawn. An invitation to attend this meeting is extended to all members and non-members who are interested in farming or ranching, declare FB officials.

Several New Students Enrolled by Classes at Hamlin Junior High School

Several new students have enrolled recently at Hamlin Junior High School, according to records at the office of Principal Marvin Carlton. Among the new students are:

Sixth Graders — Patricia Kay Harkey, daughter of Mr. and Mrs. A. E. Harkey of 229 Northwest Fourth Street. She attended the May Thompson Elementary School in Los Angeles, California, last year.

Patricia Sue Martin, daughter of Mr. and Mrs. Joseph B. Martin Jr. The Martins live at 44 Northwest Avenue C. Martin is employed by a well servicing company. Patricia Sue attended the Travis Elementary School in Odessa last year.

Cecil Murel Price, son of Mr. and Mrs. Ted C. Price. The Prices live at 503 Northeast Avenue E.

Cecil attended school at Ballinger last year.

Ruth Marilyn Maynard is the daughter of Mrs. John Hopkins, and lives with her grandmother, Mrs. A. B. Maynard of 335 Northwest Avenue A. She attended school at Arlington last year.

Seventh Grade. Larry Glen Blackwell is the grandson of Mr. and Mrs. Jess Miller, 150 Northwest Seventh Street. Larry comes from Abilene.

Mary Beth Hall is the daughter of Mr. and Mrs. J. D. Hall. The Halls live at 1013 South Central Avenue. Mary Beth attended school last year at Chula Vista, California.

Karen Diane Thomas is the daughter of Mrs. D. W. Thomas. She lives at 347 Northwest Fourth Street. She attended school last year at Beaumont.

Eighth Grade. Judy Taylor lives with her uncle and aunt, Mr. and Mrs. W. H. Hallmark at Coltex. Judy attended school last year at Odessa.

Paul Wayne Sikes is the son of Mr. and Mrs. N. H. Sikes. The Sikes live in the Neinda community. Last year Paul attended school at Strawn and Anson.

Robert Lee Woodruff is the son of Mr. and Mrs. R. L. Woodruff of 338 Northwest Second Street. Woodruff works in the oil fields. Robert attended school last year at Blythe, California.

Big Game Hunter Shows Films for Rotary Luncheon

Roy Tankersley of Knox City, who recently returned from a big game hunt in Africa, brought a vivid story of his safari—in colored films, which he showed at the Wednesday noon luncheon of Hamlin Rotary Club as the program feature. The session was at the oil mill guest house.

Tankersley, who was accompanied by a Baird friend, declared that wild game was abundant in Africa, although much of it is being protected from hunters in preserves. However, there was plenty to hunt, he said.

The pictures showed scenes taken at Cairo, Egypt, where the party landed, then traced the trip several hundred miles south into the wilds of the Dark Continent. The pictures showed the hunters stalking and killing wildebeests, baboons, ducks, foxes, zebras, water buffaloes, lampalas, antelope, lions, deer and other game.

Final plans for the thirtieth anniversary ladies' night of Hamlin Rotary Club were announced by Tommy Davis, program and arrangements committee chairman for the event.

Besides Tankersley, other guests at the Wednesday luncheon included Lee Belew, Ronald Kinsey and Charles W. Welch of Sweetwater; Curtis Wedeking, Tony Rector and W. M. Blackburn of Stamford; Hugh Taylor and Max West of Snyder; Shanley Simpson of Houston; Everett Gibson and Bill Murff Jr. of Hamlin.

Hamlin Nurses Asked To Join Stamford Unit

Nurses of Hamlin, Anson, Haskell have been asked to join the Stamford licensed vocational nurse unit, which was recently organized at Stamford.

Membership of 25 nurses was necessary to receive a charter for the organization. Several Hamlin nurses recently attended a meeting of the Stamford unit.

TEXAS DAIRY PRINCESS—Barbara Frasher, 20-year-old blue-eyed blonde of Gainesville, is crowned Texas Dairy Princess at Austin by Lois Jean Walshak (left), last year's princess. Barbara, a senior at Baylor University, will represent Texas at the American Dairy Princess contest in Chicago in October.

Great Advances Being Recorded by Research in Public Health Channels

A wise man once said, "Who would not give a trifle to prevent what he would give a thousand worlds to cure?"

These words take on a great deal of meaning when viewed in the light of the many advances in medicine and public health made in the last 50 years in the United States and throughout the world.

Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have

been made which stop suffering before it starts—the proverbial "stitch in time."

Economically speaking, preventive medicine has saved the people of the United States countless dollars. One example is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. It is seen in many prematurely born babies and causes partial or total blindness.

For years the disease was believed to be a result of premature births. However, a study supported by both federal and private financing established the cause of the trouble as due to the faulty administration of oxygen (used extensively in incubators for premature infants).

This study cost approximately \$50,000. Today there are about 5,000 blind children in the United States who are victims of retrolental fibroplasia. Each child will cost an estimated \$100,000 each or education, training and support from birth to death—or a grand total of \$500,000,000.

Thus, the cost of care for 5,000 children will be, for our generation, 100,000 times the cost of the prevention for the future.

Advances in public health, coupled with the discovery of wonder drugs, raised the life expectancy for persons now born to over 70 years of age. In the 17-year period between 1937 and 1954 it increased 9.6 years.

This means that in 1955 alone, through this decline in the death rate, over 70,000,000 additional federal income taxes was received by the government, to say nothing of the earning power and productivity from an increased span of life.

There is no doubt about it: Public health and research pay off!

New Egg Law Will Regulate Marking For Market Sales

The Texas egg law, which becomes effective August 22, may be "just what the doctor ordered" to assure Texas consumers that high quality eggs are being placed on the market for sale.

The effect of the law will not only be felt by consumers, but by producers and other industry men as well, according to F. Z. Beanblossom, extension poultry marketing specialist.

This law, says Beanblossom, provides primarily for inspection and careful labeling of all eggs that are to be sold on grade. The eggs are inspected primarily at retail outlets and if sold on grade are labeled according to size and quality. Ungraded eggs must be so labeled.

It shall also be unlawful to sell or advertise shell eggs below the quality of Grade A as "fresh," "selected," "cage," "infertile," "new laid" or other words of similar import.

Producers of eggs who sell only the production of their own flocks are exempt from the law unless they sell on the basis of grade; then their eggs must meet the standards specified by the law.

The deadline for obtaining licenses by dealers, retailers, wholesalers, brokers and processors is October 20. There is no fee to any retailer, as defined by the law—that is, any person selling or offering for sale eggs to consumers only in this state.

Actual enforcement of the new law will start on February 17, 1958.

First of New Series of School Assemblies To Feature Archer

First in the new series of national school assembly programs sponsored by Hamlin High School will be presented next Wednesday afternoon, October 2, at 2:00 o'clock, it is announced by school officials.

Designed principally for students, the program also are open for public attendance. Student tickets are 10 cents each performance.

Featured in next Wednesday's program will be Duke Gordon, way through a presentation as who shoots his way through a entertaining as it is informative.

An expert with the bow and arrow, Duke Gordon has long been active in archery circles. In national championship competition, in organization of archery clubs, in stimulating interest among youth and in writing articles on the subject, Duke has established an enviable reputation.

STILL FIRING AWAY.

"So your husband is one of the big guns of industry?"

"Yes, he's been fired seven times."

Wealthy Can Give Away Near Fortune Without Gift Taxes

A lot of folks are surprised to find out that (if you are rich enough) you can give away a lot of money without paying federal gift taxes, reminds Tax Man Sam in a release to The Herald.

Every person has a \$30,000 specific lifetime exemption that they can give away without paying a gift tax. They can also give away \$3,000 a year to as many different people as they can afford without paying any gift taxes, with some exceptions. How much you can give away without paying taxes, as long as you do it more than three years before you die, is brought out by this example:

John and Mary have struck oil. They have five children and 20 grandchildren. They can give away \$30,000 each or \$60,000 under their specific lifetime exemption. They can also give each of their children and-or their children's husband or wife and each of their grandchildren, or a total of 30 people, \$3,000 each or \$6,000 per year. This makes a total of \$180,000 per year that John and Mary can give to their children and grandchildren tax free.

During the first year John and Mary could give as much as \$240,000 under the circumstance cited above tax free. Each year thereafter they would be limited to the \$180,000 unless they choose to pay gift tax. It is too bad we are not one of the children.

Go to The Herald for pen refills.

Sixth Grade Classes Elect Year's Officers At Organization Meet

Sixth grade classes at Hamlin Junior High School recently were organized. The following officers and home room teachers were selected:

Grade 6A—Sue Johnson, president; Nicky Moore, vice president; Diane Bond, secretary-treasurer; Jaylon Fincannon and Ronnie Sipe, reporters; Mrs. E. N. Jenkins, home room teacher.

Grade 6B—Cleon Warner, president; Don Houghton, vice president; Cheryl Brown, secretary-treasurer; Kay McCoy, reporter; Lola Milstead, home room teacher.

Grade 6C—Marilyn Maynard, president; Walter (Speck) Cox, vice president; Jean Wells, secretary-treasurer; David Bingham and Ronnie Teichelman, reporters; Mrs. Dudley Griggs, home room teacher.

Work Underway on McCaulley Annual

Work has already begun on the 1957-58 yearbook of the McCaulley High School. Solicitors were in Hamlin last week and this week selling ads in the annual.

Betsy Maberry is business manager of the annual, The Eagle, which will be published in the spring.

TELEPHONE TALK

by Jim Garrett, Manager

Long Distance Back to Normal

For four days last week you might have had some trouble placing your long distance calls. This was due to a strike by Western Electric Company installers. Picket lines were fixed at 6:00 a. m. September 16, in all telephone buildings where Western Electric Company was working. Southwestern Bell employees, including operators and central office workmen, did not cross the picket lines.

In this immediate area the Abilene and Sweetwater offices were affected. If you had a call which was routed through one of those offices you probably had a delay in getting your call through and at the same time had to listen to a gruff operator's voice. Almost all calls were handled by a male operator.

Picket lines were removed early Friday a. m. and we are glad service is back to normal again.

Safely Back to School

Well, it's September and school bells are ringing again. It's a good time of year to remind ourselves to be even more cautious in our driving—especially until we get accustomed again to "school stops" and small fry pedestrians.

Here at the telephone company, we've always stressed safe driving—"safety consciousness" as well as care and skill handling our cars and trucks.

Telephone men like F. E. Turner, Wilton Hayes and Melvin Scott deserve much credit. Year in and year out, they drive 10,000 or more "safe" miles. Thanks to their records and similar ones established by telephone drivers in other cities, Southwestern Bell again won the National Safety Council's Award of Honor in 1956.

Don't Run! Reach!

Next time your telephone rings, think about this: Can you reach out and answer it... or do you have to run for it? Is it handy? Or is it in some out-of-the-way place? Maybe even on a different floor?

The cost of having telephones wherever you need them around the house is surprisingly low, especially in comparison to the comfort and convenience they give you.

Each extension phone costs only \$1.00 a month plus a one-time installation charge.

Why don't you call or come by the telephone business office? Let us help you plan complete, convenient telephone service. More and more people are learning the modern idea is to have phones within easy reach.

Call by number. It's twice as fast.

State Parent-Teacher Leader Speaks At District Board Meeting in Hamlin

Mrs. T. A. Swenson of Tyler, state representative, was the featured speaker at the meeting of the Parent-Teacher board of managers of the 18th District, in the

home of Mrs. M. L. Smith, local P-TA president, last Tuesday.

Twenty-one members of the board were present for a coffee hour preceding the business meeting, and were guests of the Hamlin schools for luncheon in the Primary School cafeteria.

Mrs. Bob Herren of Haskell, president of the district, introduced M. H. Galbreath of Girard, who opened the session with a prayer. Reports were given by district vice presidents, chairmen, officers and city council chairmen.

Mrs. Swenson emphasized the objects of the P-TA work and outlined the qualities of P-TA leadership. She presented the three Rs of Parent-Teacher work: Belong, Believe and Build.

Mrs. Ned Moore, district historian, and Mrs. J. D. Ferguson, life membership chairman of the Hamlin P-TA, attended the session also.

Four in G. E. Wells Family Honored at Birthday Dinner Here

Mr. and Mrs. G. E. Wells of 50 Northeast Second Street hosted a birthday dinner on Friday, September 13, for G. E. Wells, Harold Wells, the oldest son, and the twins, Aaron Wells of Hamlin and Mrs. Marion Wells Moyer of Hoquiam, Washington.

Those present besides the honorees were: Mr. and Mrs. Jack W. Griffith of McCaulley, Mrs. Harold Wells, Jean Wells, Mrs. Aaron Wells and three sons, Reginald, Gary and Gordon. Numerous other guests called during the afternoon.

G. E. Wells celebrated his seventy-third birthday. Having been born in Pontotoc, Mississippi, he moved to Waco, Texas, at the age of nine. In the winter of 1913 Mr. Wells married Mamie Varner of Thornton. At this time they moved to the Hamlin community, where they have resided since.

THESE WOMEN!

By d'Alessio

"Can't you vary the order of serving? By the time you get to Mr. Gaines the martinis are all ice water!"

Child Who Bangs Head May Be Only Amuses Himself, Says Child Specialist

"Doctor, Tom does the craziest things!" That Mrs. Edgerton was really very worried was clear to see, reports Dorothy V. Whipple, M. D., writing for the AP Newsfeatures. She continues the release:

"He bangs his head against anything hard he can find. He bangs it so hard he makes bruises on his forehead. Is there something wrong with his mind, doctor?"

It does seem a crazy thing to do, all right, but plenty of perfectly normal children do it.

Sometimes a child bangs his head when he is angry, the way another child would throw something. But sometimes he seems just to enjoy it. If you will notice the banging is always rhythmic—you can count a regular beat. Often, too, the child will accentuate this beat with his voice; he makes a grunting or a humming sound each time his head hits the floor or the wall.

Like many of the peculiar habits children develop, if the banging is only occasional you have no cause to worry. He may give himself a black and blue welt on his head, but aside from this he will do himself no harm. And in the course of time he will abandon this type of behavior with no special help from you.

However, if a child keeps himself awake at night with his banging, or if he prefers to bang him-

self instead of playing, it is time to look into the reasons.

How satisfactory is the child's life to him? Is he bored? Does he need some new toys, more play equipment? Does he need children his age to play with? Maybe he needs warmer, friendlier adult attention. He needs something that will interest him more than his own rhythmic activity.

A child who discovers comfort and satisfaction in rhythmic motion and sound is often highly sensitive to sounds of all kinds. As a tiny baby he may scream out at a noise another child would ignore. As he begins to learn to talk you will hear him playing with his voice. He will make a high-pitched squeaky sound, then a low guttural one. You can watch him hear the difference, maybe laugh out loud and then try it again. All children do this to some extent, but some youngsters are more aware of sounds and their variation than others.

This gives us a clue about the interests of a head-banger. Many such children are musical. A head-banger may stop his banging to listen to you sing. He will love music on the record-player or the radio. Do your best to interest him in rhythm and music other than that which he makes with his own head. If you try to stop his banging with your singing, be sure to catch his beat in your rhythm. If your music is off his rhythm you may make him frustrated and angry. It's not as hard to do as you might think. Just observe him, accenting his beat, catch his attention, then as he stops to listen to you, you can change to a real melody or turn on the radio.

Don't scold or punish a head-banger—it never helps. Try to interest him in a wider range of activities and try to prevent those anger-producing situations that end up in an episode of banging.

Xi Gamma Pi Group Meets in Luncheon For First Gathering

Mrs. George Poe entertained members of the Xi Gamma Pi chapter of Beta Sigma Phi with a luncheon September 14 at the Petroleum Club in Abilene. This was the first meeting of the new club year. Yearbooks were passed out by Mrs. E. D. Perrin, who was in charge of the program.

Those attending were Mrs. Austin Poe of Kerrville, Mrs. Brad Rowland Jr. of Abilene, and the following members: Mmes. John C. Bryant, E. J. Hawkins, Gerald Young, J. O. Ballard, Jerry Waggoner, Weldon Carlton, C. W. Griggs, Bill Feagan, M. L. Smith, W. T. Johnson, E. D. Perrin and George Poe.

SCRAP PAPER WANTED!

The Celotex Corporation will purchase newspapers (no magazines) at the Hamlin plant west of town.

Paper Received on Friday Only

from 1:00 to 3:00 p. m. in quantities not less than 1,000 pounds quantities.

Paper purchased only from clubs, churches and other organizations.

Prevailing market prices.

Delegates to Confab Speak at McCaulley Club Gathering

Members of the McCaulley Home Demonstration Club met in the home of Mrs. Luther Maberry Friday afternoon. Mrs. Bill Maberry, president, presided at a business session. Recreation was conducted by Mrs. Frank Kemp.

The three delegates from Fisher County who attended the Texas Home Demonstration Association state convention in Houston recently gave some interesting reports. They were Mrs. Joyce Noles of Roby, Mrs. Campbell of Rotan and Mrs. Jerry Maberry of McCaulley.

Refreshments were served by the hostess to the guests, Mmes. Noles and Campbell, and the following members: Mmes. Ray Maberry, Jerry Maberry, Louis Boyd, Holman Boyd, Frank Kemp, Glen Henderson, Willie Fancher, Ted Abbott, Lon Andress and Armond Smith.

The club will meet October 3 with Mrs. Willie Fancher of Hamlin.

RETURN TO AUSTIN.

Mr. and Mrs. John T. Pope and infant son, John Michael, returned to their home at Austin Saturday after an extended visit in Hamlin with Mrs. Pope's parents, Mr. and Mrs. E. M. Hames. Their baby was born here. Pope is in the Air Corps at Bergstrom Air Force Base near Austin and is formerly of McCaulley. Mrs. Pope is the former Joy Fay Hames.

Paisley prints will be found in washable, cotton knit fashions this fall. This slim shirt dress, of Alamae Permathe Everglaze knit, has a tailored collar and three-quarter sleeves trimmed with cotton ribbing. It is styled by Koret of California.

Muriel Mehaffey and J. W. Scifres to Wed

Mr. and Mrs. Tom Mehaffey of Roby are announcing the engagement and approaching marriage of their daughter, Muriel Evaline, to J. W. Scifres, son of Mrs. Eula Scifres of Hamlin.

The wedding will be solemnized Friday, October 11, at 8:00 o'clock in the evening at the Sunset Baptist Church in North Hamlin.

Fall Fashion Trends Pointed Out by Jones Demonstration Agent

Here are some fashion notes as reported at the American Home Economics Association meeting recently in St. Louis, Missouri, says Mary Y. Newberry, home demonstration agent:

Straight, full and pleated skirts will be popular this fall. The sheath will have only a drawstring to mark the waist.

Dark cottons will be popular in early fall. Other materials will include chiffon weight wools, dress crepes, printed jerseys and patterned woven jerseys, tweeds, soft flannels and rayons. Many patterns will be borrowed from men's wear. Striped suiting, Scotch plaids, argyle geometrics and regimental stripes will be popular.

One color to be seen a lot will be bright blue. Hair styles and hats will have a shaped-to-the-head look and berets will be popular again.

Shoes with pointed toe and pencil thin heel will be top fashion.

The longer skirt is here. There is no set length from the floor, but there is a definite visible difference from the hemline of 1956.

CAST IRON CARE.

When cleaning cast iron do not scrub it thoroughly as the apparent "greasy" surface prevents the pan from rusting and makes cooking easier. Store the pan after coating it with a thin layer of oil or grease applied with a paper towel.

Methodist Women Meet Tuesday Morn

Members of the Bonnie McBride Circle of the Woman's Society of Christian Service of the First Methodist Church met in the home of Mrs. Mac Fullerton for their regular session Tuesday morning at 10:00 o'clock.

Mrs. Fullerton presided during the business session. The circle voted to order 34 boxes of Christmas cards. Mrs. Jim Ballard is to be telephone chairman for the month of October.

Members of the circle are urged to attend the covered dish luncheon at the church on October 1. Mrs. W. T. Johnson will be hostess for the October 22 circle meeting.

Mrs. Parker Kelly gave the program at the Tuesday gathering.

Coffee and doughnuts were served to these attendants: Mmes. Richard Young, Jack Vaughn, George Poe, W. T. Johnson, Jim Ballard, Parker Kelly, Mac Fullerton, Dean Witt and J. C. Cauble.

State Capital NEWS

By Vern Sanford, Manager, Texas Press Association.

Austin.—"Tickets" for Texas 1958 political bouts go on sale next week. Poll taxes, \$1.75 each, can be bought from October 1 until January 31.

Holders of the small white tax receipts not only can watch, but participate in the semi-annual struggle to decide who will be "top dog" for the next two years. In the ring will be contenders for the office now held by U. S. Senator Ralph Yarborough, Governor Price Daniel, Lieutenant Governor Ben Ramsey, and so on down the line.

"Ticket" holders also can attend their Democratic party precinct conventions next May, where the first round of a right for party control will be staged.

Assuming you have \$1.75, paying a poll tax shouldn't be hard. Dozens of groups—Jaycees, labor unions, women voters, etc.—plan massive drives. Most voters probably will be able to find a poll tax selling both within blocks.

Exact number of potential voters is not known, of course. But some civic leaders hope as many as 3,000,000 persons will pay poll taxes. Previous record is a total of 2,410,188 for 1956, a presidential election year.

Another peak is expected in 1960 when census projections show more than 5,500,000 should be eligible to vote in Texas.

Oil Quotas Sag.—Lean days are ahead for Texas' top industry—oil.

After three months on an all-time low producing pattern of 13 days, the Texas Railroad Commission cut the October production to 12 days. Daily allowable will be 2,964,062 barrels.

Major oil buyers at the commission hearing indicated that any more production would result in an over-supply.

For a state heavily dependent on oil tax revenue and already faced with fiscal problems, the oil cut means tough times for the state budgeters.

More Taxes, Says Board.—Even before the oil slash, the Legislative Budget Board had some hard facts to share with the Texas taxpayers.

By 1958, says the board, the average Texan will pay 6.4 cents of each dollar he earns in state taxes. This is compared to 5.3 cents per dollar in 1957.

It's the inevitable result of a billion-dollar-a-year budget, says the fiscal experts. They attribute the soaring expenses to inflation and citizen demand for more government services.

As to paying for it, the board says, "All taxes ultimately come from the individual. There's no one else to pay them."

On the brighter side, State Comptroller Robert S. Calvert reported the state started the new fiscal year this fall in the black. Calvert's report showed Texas took in approximately \$100,000,000 more than it spent up to August 11.

"Bug" on the Loose.—In public schools, colleges, offices—even in jails—over Texas, thousands of people are abed.

Nearly 3,000 cases, with flu-like symptoms, have been reported to the State Health Department. Finding out whether its Asian flu requires special tests. Health department offices are swamped with specimens and requests for tests.

Whatever the disease, it meant

that football games and other school activities had to be called off in a number of areas.

So far, only a dribble of Asian flu vaccine has come to Texas.

Dr. Henry Holle, health commissioner, urges these precautions for the general public:

1. Stay away from crowds.
2. Drink plenty of liquids—fruit juices and water.
3. Go to bed at the first sign of symptoms. (Symptoms are fever, chills, headache, sore throat and aching back and limbs).

Demos Have Choice.—In some areas people contributing to the October 11-12 Dollars for Democrats drive can choose where they want their money to go.

One set of fund-seekers will be working at the behest of the official Texas organization, the state Democratic executive committee. In accordance with a formula set up by national officials, they will keep two-thirds of what they collect for Texas work, send one-third to national headquarters.

Workers for the liberal minded Democrats of Texas, at odds with official party leaders, say they will turn no money over to the state office. All DOT collections are to go to national.

Push for Water.—Activity toward a state-wide water development program moves forward.

Members of the governor's citizens' water planning committee are receiving information kits. Material is to be used in a campaign for adoption of the \$200,000,000 water bond amendment.

Governor Daniel also announced the three representatives who will be in charge of getting water planning legislation through the House during the special session. They are Representatives W. N. (Bill) Woolsey of Corpus Christi, Leroy Saul of Kress and Bill Shaw of Forney.

At the third annual Water for Texas conference at College Station, Gibb Gilchrist, conference founder, called creation of one central water agency as the state's greatest need.

More Appointments.—Governor Daniel's appointment list grows. Recent additions to state government:

A. H. (Kerry) Knippa of San Antonio to the building and loan section of the State Finance Commission.

E. L. Jackson of Cisco and John E. McKelvey of El Paso to the State Veterans Affairs Commission.

Joe C. Carrington of Austin to the Commission on Alcoholism.

John E. Lowe of Vidor, R. B. Rabb of Point and Carroll Swearingin of Quitman to the Sabine River Authority.

Raphael Wilson of Austin and Dr. Paul C. Witt of Abilene to the Board of Examiners in Basic Sciences.

Mrs. Marie Hudson of Austin to the Firemen's Pension Commission.

EVER CAUTIOUS.

A retired banker decided to operate a filling station. His first customer was a farmer he had known and to whom he had loaned money for years.

Farmer—"Fill 'er up."

Ex-Banker—"How far are you going?"

Farmer—"Over to Troy and back—about 60 miles."

Ex-Banker—"I think you can make it on four gallons or a little more, but I'll let you have an even five."

KERRY DRAKE

Dividends Declared By Celotex Concern

Directors of the Celotex Corporation this week declared quarterly dividends on the company's common and preferred stock for the quarter ending October 31, 1957, according to a release to The Herald from Chicago.

The dividends are 60 cents a share on common stock and 25 cents a share on preferred stock, both payable October 31 to stockholders of record at the close of business October 8, 1957.

An electric eel can discharge enough electricity to knock down a man.

SQUELCHED.

During one of the discourses in the school of divinity at Duke University at Durham, North Carolina, the subject at hand was the scripture pertaining to a fool and his money being soon parted.

One of the freshmen of the class asked the professor, a Dr. White, "Sir, if the man was a fool, how did he get his money in the first place?"

The good professor answered: "He was a Duke University freshman, and his daddy sent him the money."

It was reported that the student was a model learner from that day forth.

August Milk Price For Area Set at \$5.63

Minimum uniform price paid for 4.0 per cent milk received by Central West Texas handlers from producers during August was \$5.63 per 100, according to announcement by Byford W. Bain, market administrator. A number of producers are in the Hamlin area.

Daily Class I sales by Central West Texas handlers during August were 1.52 per cent more than during July, 1957, and 7.54 per cent more than the daily sales during August, 1956.

Nile River, longest in Africa, extends for 4,160 miles.

SIMPLE SOCK DRESS.

A headliner on college campuses this fall will be the sock dress—a woven wool jersey dress knitted in Argyle sock pattern, made on the simplest possible lines, like an elongated sweater with draw-string belt.

TURN ABOUT.

Little Janice had forgotten her friend's birthday, so she wrote her a note of apology.

"I have no excuse for forgetting, and it would serve me right if you forgot my birthday next Tuesday."

Next total eclipse of the sun will be October 12, 1958.

Pied Pipers Head for Rotan Friday for Year's Fourth Tilt

Pipers Doped to Take First Loop Fracas Friday

Fourth in a series of five non-conference football games for the Hamlin High School Pied Pipers is scheduled tomorrow (Friday) on the Hamlin gridiron, and Head Coach D. C. Andrews says his boys are ready and rearing to go toward victory. Dopesters place Hamlin superior to the Yellowhammers.

Hamlin, with two victories and a tie to their credit, the Pipers have a better record than their Class A opponent, which has lost two games already.

Rotan's Yellowhammers, who before last season were in district competition with Hamlin, has a club that is light but fast. They lost last Friday by a 34 to 0 score to the superior Haskell Indians.

Coach Andrews says his team generally is in good shape. Michael Brandon is still limping a little from his ankle injury, but will be in the game. Quarterback Jimmy Bryson has missed some work-outs this week with a knee injury, but will see some duty in Friday's game, Andrews says.

Reserved Seat Tickets For Rotan Tilt on Sale

Reserved seat tickets at the Rotan stadium for the Rotan-Hamlin football game tomorrow (Friday) night are on sale at the three Hamlin drug stores, it was announced Tuesday.

Price for reserved seat tickets is \$1.25 per person, said B. N. Newberry, high school principal, who said general admission tickets may be bought at the game.

FAIRWAY WARNING.

Sign posted on a Scottish golf course: "Members will kindly refrain from picking up lost balls until they have stopped rolling."

DISTRICT 4-AA STANDINGS

Seymour and Stamford again are sharing top spot in District 4-AA standings after three games have been reeled off by all five members of the loop. Hamlin is in third place with an .833 percentage, its tie with Spur marring the record.

After the week-end games, the standings look like this:

Team—	P.	W.	L.	T.	Pct.
Seymour	3	3	0	0	1.000
Stamford	3	3	0	0	1.000
Hamlin	3	2	0	1	.833
Anson	3	1	1	1	.500
Haskell	3	1	2	0	.333

Results Last Week.

Stamford 26, Slaton 0.
Seymour 46, Burkburnett 20.
Hamlin 27, Merkel 7.
Haskell 34, Rotan 0.
Anson 0, Spur 0.

Where They Play Friday.

Sweetwater at Stamford.
Electra at Seymour.
Haskell at Iowa Park.
Hamlin at Rotan.
Anson at Cisco.

Hamlin B Team Drops Tilt to Sophomores of Abilene by 47 to 19

Hamlin High School's B team lost their first game of the season last Thursday night to a strong Abilene Sophomore squad by a 47 to 19 score. The tilt was played at Abilene Fair Park stadium.

Wesley Cummings and Billy Hallmark scored the three Hamlin touchdowns, with Cummings accounting for two of them. Jimmy Hill ran the two extra points.

Abilene had a 20 to 13 lead at the half, but in the third quarter Hamlin fell asleep and Abilene scored 20 points to seven for Hamlin.

Boys who played for the B crew were Jimmy Hill, Mike Bond, Wesley Cummings, Robert Brandon, Tobe Shields, Gary Cooper.

Jones County Golf Tourney to Draw Golfers to Hamlin

Golfers from seven area towns are scheduled to participate this week-end in the annual Jones County Golf Tournament at the Lakeview Golf Club, southwest of Hamlin, according to B. O. Bell, president of the club.

The tournament, which will be played in probably five flights, is being directed by Jim Howard King.

Trophies and golf equipment will be offered as prizes to the winners of the various flights, it is announced by King.

Golfers from Lueders, Hawley, Avoca, Stamford, Anson, Aspermont and Rotan have indicated they will participate. Qualifying rounds are to be played Thursday and Friday, and matched play will be run off Saturday and Sunday. An entrance fee of \$5 is to be posted by all entrants.

Women and wives of local golfers plan to serve lunch at the golf club Sunday, for which a nominal charge will be made, King declares.

Bell reports the Lakeview Golf Club course is in the best shape it has been for several years, and good scores are prophesied for the golfers participating in the tournament.

James Boyd Playing With McMurtry Crew

A former high school student, James Boyd, figures prominently in Coach Tommy Ellis' plans this year for the McMurtry College Indians, according to a release from Abilene.

Boyd, five feet 10 inches high, weighing 175 pounds, is a right halfback, and is expected to see plenty of action this year.

The 20-year-old back, a junior, is the son of Mr. and Mrs. R. I. Boyd of Hamlin.

Joe Kraft, Gary Williams, Ronnie Rowland, David Bonds, Bobby Ellison, Jerald McCandless, Dwight Griggs, Judy Ford, Terry Scott, Roland Rivera, Jimmy Beasley, Richard Winegeart, Wayne Boatwright, Charles Bennett, Larry Upshaw and Dale Ponder.

The B squad will play the Anson Bs this (Thursday) evening at Anson.

Frankie Lee Has Field Day as Mice Beat Albany 19-6

Led by the hard running of Frankie Lee, the Hamlin Junior High gridders started the season off on the right foot last Tuesday night with a 19 to 6 win over the Albany Juniors. Frankie Lee tallied all 19 points for the Hamlin boys.

Hamlin scored once in the first quarter, once in the second and again in the final minute of the game. Hamlin threw up a stubborn defense to contain the Albany boys until the kick-off after the third Hamlin touchdown.

Albany fielded a team considerably smaller than the Hamlin boys but nearly made up for their disadvantage by showing exceptionally fine blocking and play execution. Albany's No. 10 turned in an exceptional game.

Playing good ball for the Hamlin aggregation were Lee, Baize, Richey and Shields in the backfield, with Stanley Austin and Jimmy Cooper being stand-outs in the line.

Piper Get Back in Win Column with Merkel Victory

Hamlin High School's Pied Pipers got back into the win column last Friday night by taking a 27 to 7 decision over the strong Class A Merkel Badgers in a tilt played on the Badger gridiron. It was Hamlin's second win of the season out of three starts.

Several hundred student and adult fans of the Pied Pipers went to see the game, most of them going as part of the caravan organized by the Pied Piper Booster Club.

The Merkel tilt was another non-conference game, but it provided a good test of Coach D. C. Andrews' charges.

First touchdown was registered by Bill Murff on an end sweep that was good for eight yards. Two passes snagged by End Charles Jenkins that were good for 35 and 50 yards set up the score. Lanier Foster booted the extra point.

The score was in the second quarter, and the half ended 7 to 0. Halfback Virgil Wilson skirted the right end for 20 yards on the second marker in the third quarter, and Foster again converted with a boot between the uprights.

Third score for Hamlin came early in the fourth quarter when John Richey pushed through the line for four yards, and again the extra point was booted by Foster.

Merkel pushed over a touchdown middle of the fourth quarter and made the extra point.

Wilson again scampered down the field for a 70-yard touchdown as he went over left tackle and followed good blocking to the double stripe. Foster failed in the conversion attempt.

People of Area Will Attend Texas Prison Rodeo in October

Hamlin area residents will be among attendants at the twenty-sixth annual Texas Prison Rodeo which looms again with the anxious anticipation of countless avid rodeo fans and convict contestants alike.

Consistent top money winners in the prison rodeo are eagerly awaiting the opening date, October 6, to test again their nerve and skill against the brawn and savagery of the wildest rodeo stock available.

Anson Tilt Tuesday To Test Junior Squad

Coach Harry Martin is getting his Hamlin Junior High School gridders ready for their most severe test of the season, when they meet the Anson Juniors next Tuesday night at Hamlin.

Anson is doped as the team to beat in the conference this year, according to those in the know. Game time will be 7:00 p. m. at Pied Piper stadium.

District 4-AA Teams Do Better in Tilts Last Week-End with Four Wins and Tie

Football teams of District 4-AA did a little better last week-end with non-conference foes than they had done the two previous weeks, winning four and tying one of the five tilts played, to boost their pre-conference percentages.

Stamford Bulldogs won their thirty-fifth straight victory with a 26 to 0 victory over the Slaton Tigers. The Seymour Panthers slapped the boys of Burkburnett with a 46 to 20 win to also maintain a perfect record. Hamlin's Pied Pipers took their third game of the season with a 27 to 7 win over Merkel to stay in third place.

Anson, having the same luck with a strong Spur Bulldogs crew as did the Pipers, wound up their tilt with a 0 to 0 tie. Haskell Indians, with two previous losses this year, ran over the Rotan Yellowhammers 34 to 0.

Stamford, riding high on last year's AA championship record, soundly trounced the Slaton boys with a 26 to 0 shut-out in a tilt played at Stamford. Scoring for the Bulldogs were Charlie Helmer, Fred Upshaw and Duane Lindsey, and Rufon Escobedo covered a fumble in the Slaton end zone for the fourth marker. Stamford made 11 first downs to seven for Slaton.

Particulars on the Seymour 46 to 20 victory over the Burkburnett crew were not available. This was the third straight win for the strong Seymour aggregation, that has been doped to take the district championship this season.

Hamlin Holds Lead in District League for Junior High Schools

Hamlin easily commanded the lead spot in the area Junior High Conference after the first week of play. The standings looked like this:

Last Week's Results.

Hamlin 19, Albany 6.
Rotan 13, Merkel 13.
Anson—Open date.

Games September 24.
Hamlin at Merkel.
Rotan at Anson.
Albany—Open date.

Games October 1.
Anson at Hamlin.
Albany at Merkel.
Rotan—Open date.

Women of Stamford Wins Hamlin Golf Tournament Recently

Forty-three women golf players from Stamford, Sweetwater, Abilene, Graham, Breckenridge and Snyder participated in the annual women's golf tournament sponsored last Tuesday by women of the Lakeview Golf Club of Hamlin.

Opal Vaden of Stamford won championship honors for 18 holes of play. Two 18-hole flights and two nine-hole flights were reeled off during the day.

Runner-up in the championship flight was Hannah Supumur of Sweetwater and Nita Jackson of Stamford.

Winners of the first flight 18-hole matches were Joyce Knabel and Letha Brannon of Hamlin. In the first flight nine-hole matches Peggy Groves of Graham and Lera Hogan of Snyder and Boots Shaw of Graham led the field. In the second flight nine-hole play Fern Harris and Ester Lee Armstrong, both of Sweetwater, had low scores.

Winners of low putts were: In the 18-hole matches, Letha Brannon; and in the nine-hole play,

Hunters Warned to Plug Auto Shotguns

Hunters of the Hamlin area were warned this week against hunting with shotguns holding more than three cartridges, two in the magazine and one in the barrel. The warning came from the game warden of this area.

This regulation applies to both quail and migratory waterfowl this year, the warden said.

"Most shotguns come from the factory equipped with a wooden plug which can be inserted in the magazine," the warden said. "If your gun has not been plugged already, either take it by a sporting goods store and have it plugged or buy a plug."

A piece of wooden dowel also can be used to plug the guns, he said.

BIG GATE AT GAME.

The crowd at the Hamlin-Albany game last Tuesday night was one of the largest ever to see a junior high game in Hamlin, reports Principal Marvin Carlton. Gate receipts totaled \$130, he said.

Peggy Groves. In the hole-outs Peggy Groves and Tillie Smith were winners.

COAST-TO-COAST ECONOMY RUN PROVES IT—CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs least to operate of the three leading low-priced cars that were tested! But that's not surprising. You expect Chevrolet engines to give extra miles out of a gallon of gas—just as you expect finer craftsmanship in the way a Chevy is built. Better see your Chevrolet dealer soon!

Reduction in Federal Budget Means Difference to Taxpayers of Territory

As little as one might think of it, the recent reductions in the federal budget will mean savings to the individual taxpayer right here in the Hamlin territory.

The West Texas Chamber of Commerce this week reported that Texas taxpayers will eventually save \$219,500,000 through the \$5,000,000,000 in the appropriation cuts effected in the 1958 federal budget.

The estimate was based on the West Texas CC calculations that Texas taxpayers bear 4.39 per cent of all federal taxes.

The overall reduction is almost identical to the \$4,900,000,000 figure which the WTCC had predicted in early June as a "reasonable expectancy" for a final result of congressional and executive actions in cutting the budget.

The regional chamber credited "the unprecedented volume and persistence of public criticism" of the president's 1958 budget with producing "substantial results."

"The criticisms generated widespread demands for economy at the grass roots which built up in Congress the strongest and most lasting economy wave in a decade and produced a noticeable effect on the administration."

The regional chamber's analysis made these five points in measuring the results of budget cutting in relation to the \$73,000,000,000 of appropriations and other spending authority requested in the budget:

1. Reductions totaling \$1,200,000,000 which were made by the president himself from appropriations proposed in his budget and which were agreed to by Congress.

2. Aggregate reductions of \$4,800,000,000 made by Congress from the revised appropriations requests submitted to Congress by the president. Of this total about \$1,600,000,000 will not necessarily result in eventual savings, leaving a total of \$3,300,000,000 in effective reductions.

3. A net reduction of \$500,000,000 in budgeted appropriations resulting from congressional actions on proposed legislation. A total of \$1,300,000,000 in appropriations was cut by congressional action on six major legislative proposals included in the budget. But this total was offset in the amount of \$800,000,000 by Congress' approval of increased benefits for veterans not proposed in the budget and by failure of Congress to vote postal rate increases proposed in the budget.

4. The net reductions shown in the three paragraphs above total \$5,000,000,000. This amount could later be offset in some degree through operation of the housing act of 1957 in which Congress approved almost \$1,000,000,000 more spending authority than was proposed in the budget. The president has indicated, however, that he does not intend to use this excess authority.

5. The president prevented almost \$1,100,000,000 of additional new spending authority approved by Congress from going into effect. He did this by vetoing bills passed by Congress at the close of the session which raised salaries of federal employees at a cost of \$850,000,000 a year and provided a \$210,000,000 loan program for veterans' housing.

The regional chamber pointed out that not much more than \$1,000,000,000 of the \$5,000,000,000 total cuts will serve to reduce federal spending in 1958 because at least 75 per cent of the appropriations cut were not scheduled to be actually spent until 1959 or later.

The WTCC added the remainder will have the effect of cutting future expenditures below what they would otherwise be.

FIRST THINGS FIRST.

A story is making the rounds in Alabama about the dyed-in-the-wool Dixiecrat who attended a meeting at which candidates for delegate to the national convention outlined their views.

When all had spoken, a friend asked, "Well, what do you think now, Lem?"

"Think?" exclaimed the Dixiecrat. "I didn't come here to think. I came here to holler!"

Cork comes from the outer bark of a species of oak found in the Mediterranean area.

PERSUASIVE.

"Well," said Jack, "Joe finally married that red head."

"What got into him?" queried Bill.

"Buckshot!" replied Jack.

The state crown of England contains 6,170 diamonds, including one of 34 carats.

OBVIOUS OMISSION.

The sign in the window of the highway diner read: "\$500 to the truck driver who orders something we can't furnish."

A hungry driver sat down at a table and said to the waitress, "Bring me an elephant ear sandwich."

Hurrying to the kitchen she said to the chef, "Better get ready to fork over 500 clams. There's a truck jockey outside who wants an elephant ear sandwich."

"What?" bellowed the chef, "you mean to tell me we're out of elephant ears?"

"No, we're not out of elephant ears," replied the waitress, "but we ain't got no more of them big buns."

A CAD, B'GAD.

Home Business Firms Give Us

Values

that Nobody Else Can Match!

It's a fact . . . our home merchants and service establishments give us a special type of Bargain every time we spend a dollar with them.

And no competitor of theirs in another town or city can give us . . . who live in this area . . . anything like as good a deal.

It's simple economics: the dollar we spend at home buys about the same goods that it will buy anywhere else . . . but . . . to make every purchase at home a better bargain, we also get to share in, and to profit from the more prosperous community that larger trade volume naturally builds.

And this Extra Value . . . which we do not get when we spend our money in somebody else's community . . . is the real key to our own greater individual prosperity and enjoyment of life.

Trade in Hamlin

... where you share in the prosperity that your trade creates

It Pays to Buy Where You Live!

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

Officers Elected by Eighth Graders as Classes Organized

Eighth grade classes at Hamlin Junior High School recently organized. Officers elected and the home room teachers named are as follows:

Grade 8a—Bill Richey, president; Tommy Sewell, vice president; Mary Smith, secretary-treasurer; Linda Bingham and Wayne Baize, reporters.

Grade 8b—Stanley Austin, president; Babe Shields, vice president; Carolyn Sue Ray, secretary-treasurer; Laverne Williams and Alvin Houghton, reporters; Mrs. Lewis, home room teacher.

Grade 8c—Max Cowan, president; Bobby Woolf, vice president; Janice Wilgus, secretary; Jerry Warnell and Velta Hastings, reporters; Coach Harry Martin, home room teacher.

Home One of Most Hazardous Places For Accidents, Safety Official Says

"If you want to be safe—leave home!" This startling remark was made this week by J. O. Musick, general manager of the Texas Safety Association, who added:

"Accidents in the home accounted for the death of 28,000 Americans in 1956 and 4,300,000 injuries. This places the home second only to motor vehicles in accidental deaths, and makes the home the most hazardous area known for injuries."

Musick made his statements in conjunction with the announcement that TSA, working with the National Safety Council, has just completed mailing the 1956 Home Safety Inventory reports.

The inventory is a nationwide accounting of home safety activities conducted by various local safety organizations throughout the United States. Texas, for example, had a total of 132 returns to inventory questionnaires in the 1956 report—Fort Worth had the largest response from safety groups of any city in the state.

From these reports TSA and

NSC are able to evaluate the home safety program in Texas and determine the program's weak and strong points.

"In spite of the high death and injury toll of 1956, some headway in the field of home accident prevention is being made. This is reflected by the fact that home accidents were two per cent below the 1955 figures—and this did not come about accidentally," Musick said, using a slight play on words.

He also said that professional safety men are frequently asked why greater strides have not been made in the prevention of home accidents.

In answering the question he called attention to the fact that safety education has been handicapped by several outstanding factors and gave the following four reasons why progress has been slow:

1. Because the general public has failed to appreciate the size and importance of the problem.

2. The self-sufficient belief of the individual, that he is able to take care of situations that arise on his own property.

3. A lack of organized approaches to the home accident problem on a scale that is comparable to the successful efforts of industry.

4. The absence of regulations applying to home safety, such as industrial safety codes.

"As with all other areas of accident prevention," Musick concluded, "the initial step must be taken by the individual before any program can be successful. Until persons at the grass-root level become safety minded, the accident toll will continue."

MAKE A DIFFERENCE.

A man was taking an examination for a driver's license and one of the questions was:

"What would you do if the driver of a car ahead of you moved an arm up and down?"

The applicant asked: "Man or woman?"

IN SHOW—Gladys Graham of Telen will open the road show of "Pajama Game" in Johannesburg, South Africa, in November for a five-month engagement. Miss Graham will play the role of Gladys, in which she was cast for the last four months of the Broadway run. Miss Graham is well known to Texas audiences, having played a number of State Fair musicals.

Pastor at Anson Named Moderator By Area Baptists

Rev. James Easterwood, pastor of the First Baptist Church in Anson, was named moderator of the Jones County Baptist Association for the coming year in final business session of the annual session of the unit held last Tuesday with the First Baptist Church in Hamlin.

Rev. Jack Sutherland, pastor of Stamford First Baptist Church, was named vice moderator. Rev. Woodrow McHugh, pastor of the North Central Avenue Baptist Church in Hamlin, was elected associational clerk, and Rev. Cecil Foster of Bethel Church was made corresponding secretary. C. E. Bennett of Anson was reelected as treasurer.

Good reports of work during the past church year were made by representatives from the 29 Southern Baptist Convention congregations of the county during the convention sessions, which began Tuesday morning and continued until Tuesday evening at 9:00 o'clock.

Theme for the annual conference was "Onward, Upward, Outward."

Dr. Arthur B. Rutledge, secretary of stewardship and direct missions of the Baptist General Convention of Texas, was a key speaker of the gathering.

Can Others Trust Your Driving for Sake of Safety?

"Are others safe in trusting their safety to you?" This question was asked this week by J. O. Musick, general manager of the Texas Safety Association.

"Many persons," he added, "seem to forget that every time a driver gets behind the steering wheel of a car, literally hundreds of people will depend upon his good judgment for their safety."

Musick was speaking in behalf of TSA's summer slow-down-and-live campaign which is a part of the 1957 back the attack on traffic accidents program.

He also asked drivers to recall the traffic accidents which took the lives of 12 Texas drivers in 1957 on the fourth of July.

For an all-around safer driving record, Musick suggested the following precautions to be taken:

1. First of all, a good healthy helping of common sense with a constant awareness that there is danger in nearly everything you are likely to be doing.

2. If you will be on the highways, limit the miles you plan to cover in one day's driving and be prepared for heavy traffic.

3. Get an early start and pause for rest occasionally.

4. Keep your speed down, but don't be a slow-poke and, of course, don't drink and drive.

5. Be courteous on the road—courtesy is a sign of intelligence.

6. Follow the safety rules of swimming, picnicking and sun-play. Don't over-do.

County Agent Gives Pointers on Control of White Grubs in Lawn

Is your lawn dying in spots or all over? If it is, there is a good chance that it is infested with white grubs, according to Bill Lehmburg, county agent, and Ray Walker, junior assistant agent.

These grubs are white with brown heads and six legs, and about one to one and one-half inches long. They feed on the roots and underground parts of the grass, causing it to die.

To check for them, dig down into the dead spots. The grubs are usually two or three inches deep. The grass that they have damaged can be pulled up easily.

Controls for the grubs are as follows: Ten ounces of 40 per cent chlordane powder per 1,000 square feet of lawn. Apply the dust to the grass and then sprinkle generously with water to soak it into the ground. Chlordane spray can also be used at the rate of 25 gallons per 1,000 square feet. The spray is 1 1/2 ounces of 40 per cent wettable chlordane powder per five gallons of water.

Additional information can be obtained from the county agent's office.

Again in '57

The Farmers of This Area Are Invited to Share in the Benefits That Come from Ginning at the Friendly, the Efficient

Hamlin Farmers Cooperative Gin

★ MANY SERVICES

Again in 1957, as in each year for the past many years, every cotton grower of the Hamlin territory is invited to take advantage of the services and share in the benefits that have been offered cotton producers of this area since the time when the gin was founded.

★ SERVICE FIRST

We believe that at this modern gin plant you will be assured quality ginning and that you will be pleased with the service you get when you bring your seed cotton to us. Completely electrified, we are ready to go the minute your cotton arrives at the suction stands.

★ MODERN MACHINERY

As most of you know, we have one of the most modern gin plants in the entire Southwest, especially designed and constructed to serve the needs of the producers of this area. Our cotton cleaning equipment is the best, and is a big factor in getting a better sample for you.

★ EXACTLY RIGHT SPEED

Because this is late model improved machinery, we do not have to run it slowly to get the best sample. Actually we run it at exactly the right speed as determined by scientific experimentation, and because it is so engineered, this right speed also gives us higher ginning capacity.

★ Cotton Bought or Put in Loan

We are prepared to handle your ginned cotton the way you prefer. We will buy it at top market price or will assist you in putting it into the government loan program. It will be correctly graded and sampled, as we are anxious that you get the most from your cotton.

"Where Quality Reigns"

PHONE 51

HAMLIN

Being a column in which the publisher just "blows off the steam."

By Willard Jones

JOE HUDSPETH and wife have just returned from a 10-day trip to the Bahama Islands which was provided for winners of a recent sales campaign by a major appliance manufacturer. They were among scores of appliance dealers and their wives who were awarded the trip.

"The islands are a beautiful sight," declared Joe, "but when you've seen them you have little else to make you want to remain there."

Owner of the H. & M. Tire and Appliance Store in Hamlin said the recent strife among leaders of the islands has caused tourists to be afraid to go there—and the tourist business is a big part of the economy of the vacationing islands.

As a sidelight of observances while he was in the islands, Joe said a number of years ago scores of mongooses were imported to the islands to kill out the snakes that made the islands unsafe. Now the snakes are gone, but the mongooses have become major depredators, killing chickens and other small domestic animals and fowls.

HAMLIN YOUNGSTERS of today know the ways of the world better than most of us give them credit for. For example...

While his birthday party was being planned, little Donald was asked for a list of the friends he would like to invite to the party. "I want Auntie Mills, Grandma Smith, Uncle Dick and Grandma Jones, and..."

"But wait a minute, Donald. Every one of those you have mentioned is an older person!" said mother.

"Well," replied Donald, "they're the only ones that ever seem to have any money."

H. M. BAGGARLY, editor of The Tulsa Herald, is one of the few bachelor publishers of the state. He is the subject of considerable comment and some kidding by his fellow publishers. He recently had this to say in his Country Editor column of The Herald:

It's a funny thing! Every time one bumps into a fellow publisher, either at press conventions or in one of their offices, one has to listen to a long recital of the joys of married life; what all those who haven't taken the step are missing; how much more economical it is to eat at home; how useful a wife is around a newspaper office, enabling the publisher to have more free time.

They say that wives collect all delinquent accounts, write society news and read proofs.

So anxious are these fellows that no one be deprived of this life of wedded bliss that they become helpful little cupids as they arrange for introductions and offer to pay for marriage licenses.

But from some of the stuff they write one gathers that their enthusiasm is not motivated altogether by the alleged fact that "two can live cheaper than one." Their writings sound more like "misery loves company."

Take Ben Etzell, our ultra conservative newspaper friend at Canadian, for example. Ben has a wife and a back-yard full of kids.

Week before last he asked in his column, "Why is it that when a woman tells her doctor she is all tired out, he immediately looks at her tongue?"

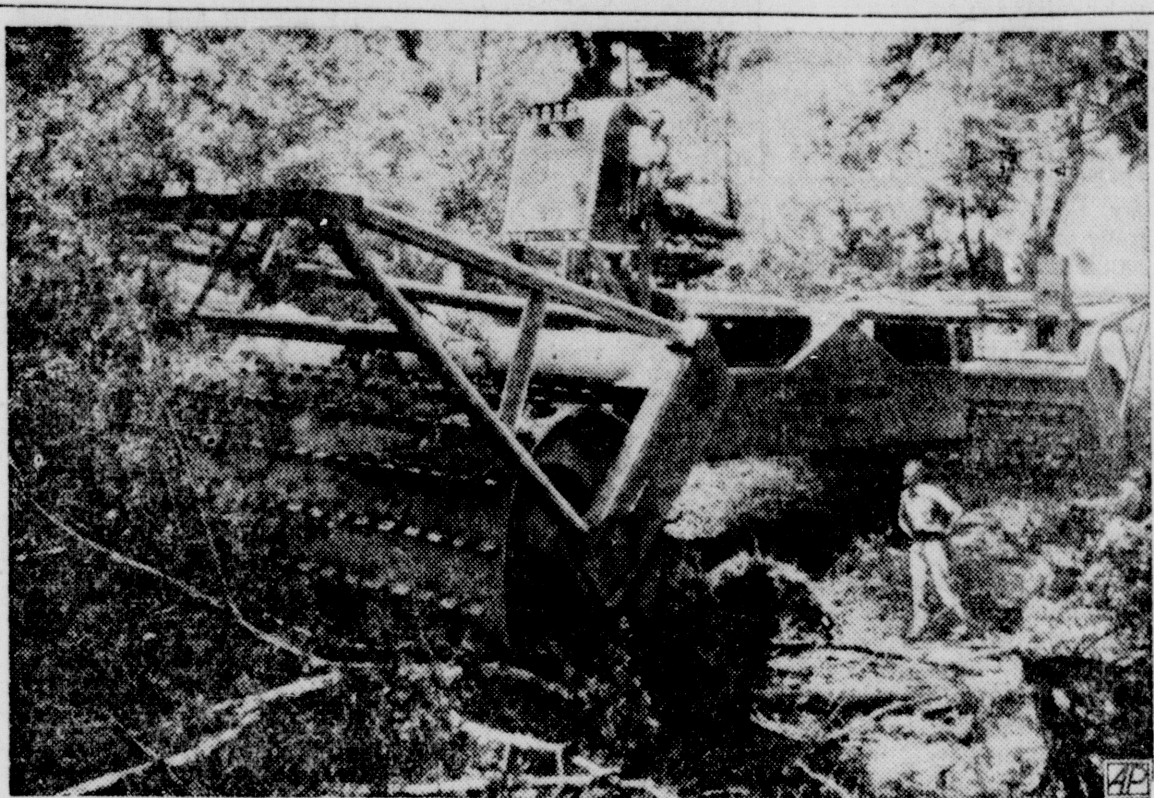

Then last week he opined, "If you have half a mind to get married, go ahead and do it. That's all it takes."

It would appear that much of the free advice we receive these days is nothing but Republican propaganda.

IT WAS TOLD of Oliver Wendell Holmes that he was one day strolling on the beach near his summer home when he began chatting with a little girl who was playing in the sand. The child soon slipped her hand in his and walked with him. By and by she said, "I'll have to go home now."

"Good-bye, my dear," said Dr. Holmes. "And when your mother asks you where you have been, tell her you have been walking with Oliver Wendell Holmes."

"And when your folks ask you where you have been," said the child, "tell them you were walking with Mary Susanna Brown."

EARTH CLEARING MACHINE DEMONSTRATION—A giant earth clearing machine whose developers say is capable of clearing jungles by yanking out trees by their roots and smashing them into splinters, is shown during a demonstration at Longview. Built by R. G. Le-Tourneau, Inc., and labeled the "tree crusher," the machine can cut a path 20 feet wide and clear an acre of land every 15 minutes. The machine is expected to be of great value in areas such as Africa and South America.

Early Returns Indicate Huge Crowd Due for Homecoming

More Ex-Students Being Contacted For Homecoming

A few return postal cards from former students of Hamlin High School have been received by officials of the Hamlin Ex-Students Association, sponsoring organization for the third annual homecoming, indicating that the response this year to the invitation may be good.

President Joe Ford of the association said this week that plans are going forward for entertaining a record number of former students.

Complete class rolls for graduates since 1912 have been made, and efforts of members of these groups to get names and addresses of the members have met with much success. However, whereabouts of many of the earlier classes still are unknown. Former HHS students who may be able to assist in locating these are asked to contact Mrs. Jo Riddle, secretary of the association.

The homecoming, scheduled for Friday and Saturday, October 18 and 19, will be featured by entertainment features, get-togethers and programs.

As part of the homecoming celebration, present high school students will not be overlooked. Women of the First Baptist Church will act as hostesses Friday night after the grid game for members of the Pied Piper football team and other high school students at a rally on the lawn of the church, across the street from the high school. Refreshments will be served to attendees.

Services Continue at First Methodist Meet

Good sized crowds have been attending the revival services at the First Methodist Church, declare church leaders. The services will continue through Sunday. Doing the preaching is the pastor, Rev. Edmund W. Robb. In charge of the music are Rev. and Mrs. Oran Smith of Throckmorton. Services are held at 7:00 a. m. and 7:30 p. m.

16 Bales of Cotton Ginned by Hamlin

Cotton continued to come in by degrees this week as the big crop begins to gradually open. Sixteen bales had been ginned by the Hamlin Farmers Cooperative Gin through Tuesday, according to Watt Fletcher, manager.

Fletcher said some of the early cotton was badly tinted, but he looked for the quality to improve as the season progresses.

Government loan for 15-16 inch middling cotton is 31.04 cents. This will be the grade of most Hamlin area cotton this year, said Fletcher.

RECENTLY completing eight weeks of basic training at the Women's Army Corps Center at Fort McClellan, Alabama, was WAC Private Gloria L. Hulsey (above), daughter of J. F. Hulsey of Hamlin.

More Than 8,000 Swims Recorded At Pool in Season

Total of 8,040 swims were recorded the past season at the Hamlin City Park swimming pool, according to tabulations released this week by B. V. Newberry, manager of the pool under contract with the Hamlin Foundation, builder of the unit.

Total income of the pool project from daily swims, swimming lessons, private parties, punch tickets and concessions amounted to \$2,622.30.

Total expenses included: Labor and life guards, \$1,476.09; supplies, \$216.45; electricity, \$302.75; water, City of Hamlin, \$122.92; telephone, \$27.75.

The pool was operated for 23 days in June for total swims of 2,940 and grossing \$1,047.30, with an average of 128 swims per day. July operated 31 days for total of 3,074 swims for gross of \$886.65, with average of 99 swims per day. During August and the first two days of September the pool recorded 2,026 swims for a gross of \$688.35, with an average of 65 swims per day.

Daily average swims for the season were 97.

Gloria Hulsey Takes Basic WAC Training

WAC Private Gloria L. Hulsey, daughter of J. F. Hulsey of Hamlin, recently completed eight weeks of basic training at the Women's Army Corps Center at Fort McClellan, Alabama.

Private Hulsey was graduated from Hamlin High School in 1935 and attended Abilene Christian College and Texas Woman's College at Denton.

Aspermont Rodeo To Attract Area Fans on Week-End

Among the scores of attendants scheduled to be in Aspermont this week-end for the annual fall rodeo sponsored by the Stonewall Rodeo Association will be many fans of the Hamlin territory. The event opens Thursday night and will repeat on Saturday night.

Stock for the two programs will be supplied by Morgan Smith of Fort Worth.

N. A. Pitcock, president of the association, said the rodeo bill would include steer wrestling, bull riding, bareback and saddle bronc riding, calf roping, ribbon roping and girls' barrel races.

Also there will be open and novice cutting horse contests. Eliminations in both will be held this (Thursday) morning beginning at 10:00 o'clock, Pitcock said.

Contestants will compete for all entrance fees. Entrance deadline is 12:00 o'clock noon Thursday, except for the cutting horse contest, which will be 9:00 a. m.

Performances will begin at 8:00 o'clock each of the two nights. Because of conflict with the football schedule the rodeo will not be conducted on Friday night, Pitcock said.

Midwest Electric Coop Will Erect New Roby Offices

Bids for construction of the new Midwest Electric Cooperative office building will be opened at 8:00 p. m. next Thursday evening, October 3, according to the coop manager, Johnnie Ammons of Roby.

Ammons said the bids would be opened in the present office building on that date in the presence of the board of directors, architects and the coop's legal advisor, Howard Davidson, Lubbock attorney. It is expected that a contract will be let on that date. Ammons said. Twelve firms had already drawn plans and specifications for the purpose of making bids, he said.

The new office building will be brick and tile, with a total of 4,450 square feet of floor space. It will have a total complement of 12 rooms plus halls, storage areas, lounge and rest rooms.

Location is to be west of the present site, facing north on the south side of the Roby-Snyder highway.

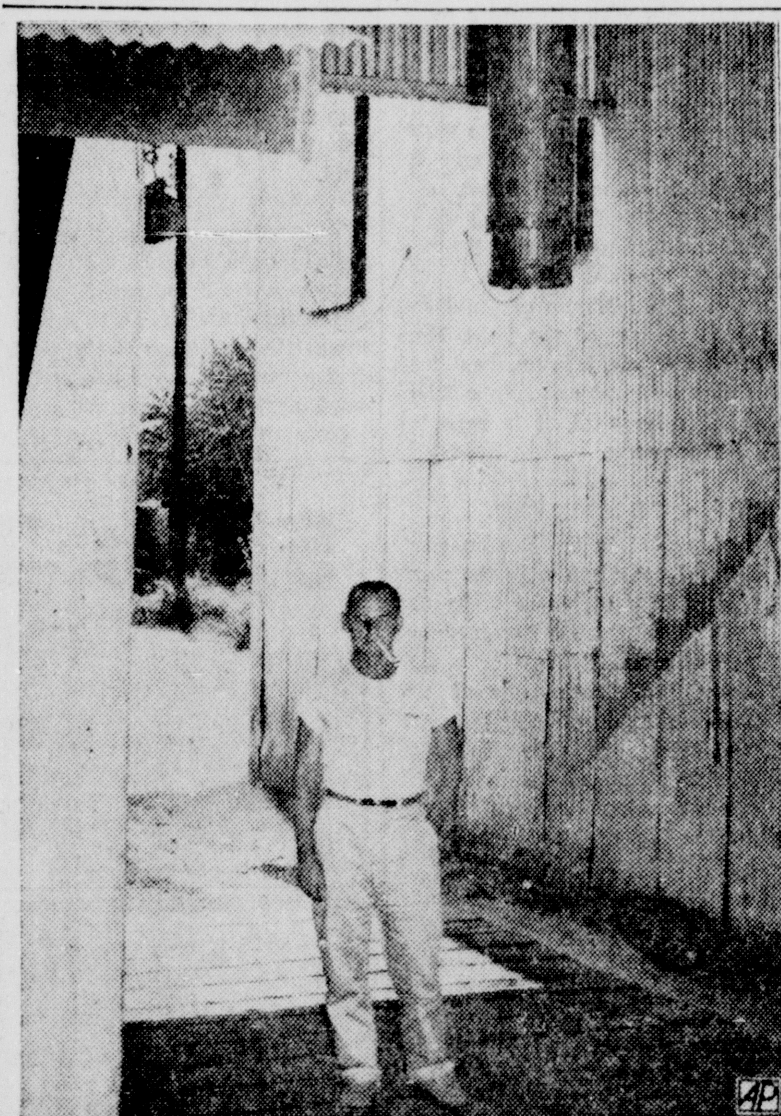

Midwest serves rural areas in eight counties of this section, including Fisher, Stonewall and Jones Counties.

Slight Decline Shown In Attendance at City Sunday Schools

Slight decline in total attendance at Sunday Schools of Hamlin was recorded Sunday in comparison with the previous week. The 1,223 total was 53 more than the year ago total of 1,170, however.

Attendance records for September 22, September 15 and a year ago, by churches, follow:

LION LIKES SWIMMING—Sampson, a 10-month-old lion cub owned by Kent Baltzell of San Antonio, takes to the water like a fish. Demonstrating how he can paddle about he swims away from his master (left) and after the swim climbs from the pool.

Hamlin Will Be Host To Firemen of Area

Members of the Hamlin Volunteer Fire Department are already making arrangements for entertaining the Mid-West Texas Firemen's Association when they meet at Hamlin Thursday, October 10 in semi-annual convention.

Badges and programs for the gathering already have been produced. Arrangements are in charge of Ed Branscum and Theo

Control of Brush To Be Featured in Field Day at Spur

Hamlin area farmers and ranchers will be among the scores of regional people attending a brush control field day next Friday, October 4, the Texas Agricultural Experiment Station at Spur.

The program will begin at 9:30 a. m. at the Spur station and will consist of viewing and discussing different methods of controlling mesquite including aerial application of chemicals, root plowing, root plowing and seeding to range grasses, individual treatment of trees and combinations of chaining and aerial application of chemicals. Control of shinnery oak and yucca by chemicals and root plowing, and seeding will also be discussed.

Other highlights will include discussion of grazing trials conducted on range land where control of mesquite, water spreading, pitting, listing and other range improvement practices have been used. Visitors will also have the opportunity to see grass seeding trials and the grass seed production nursery. The field day will end following a tour of the brush control work on the Pitchfork Ranch.

For those who wish to stay overnight, room reservations can be requested by writing the El Patio Motel at Spur. Lunch will be served by a catering service at \$1 per person.

Game Night Slated At Neinda Saturday

First in the series of new year community gatherings at Neinda will be conducted Saturday night at the community house, it is announced by community leaders. Games will be featured at the get-together, scheduled to begin at 7:30 o'clock. Everybody is invited.

Refreshments of sandwiches and drinks will be served at the conclusion of the games. "Come on, everyone, let's have fun," urges Lois Wheat, reporter for the affair.

Widows of Club Founders Also to Be Given Honors

Charter members and widows of charter members of the Hamlin Rotary Club will be honored this (Thursday) evening at the thirtieth anniversary of the local club being observed at a ladies' night at the Primary School cafeteria.

Besides the charter members of the club that now reside elsewhere, and widows of the charter members, a number of other invited guests will be among the attendants.

The celebration, which is expected to attract more than 100 Rotarians, their wives and guests, is being arranged for by a committee headed by Tommy Davis.

Entertainment feature of the evening will be the presentation of Luella Gerber of Abilene, talented reader and impersonator, who will present several numbers.

The cafeteria is being appropriately decorated for the occasion, using club colors and flowers in profusion.

No regular weekly luncheon meeting of the Hamlin Rotary Club was held Wednesday noon of this week in lieu of the ladies' night affair, said President Gene Prewitt.

Outstanding Leaders To Attend County Farm Bureau Session

Two outstanding Farm Bureau leaders, Billy Joe Guest, regional director, and Ed Cumble, district field man, will be present for the Jones County Farm Bureau annual meeting, which will be held Monday night, September 30, in the Anson High School auditorium.

Six new directors will be elected and the county resolutions will be read and adopted at this session. Three valuable door prizes will be given away to the lucky members whose names are drawn.

An invitation to attend this meeting is extended to all members and non-members who are interested in farming or ranching, declare FB officials.

Several New Students Enrolled by Classes at Hamlin Junior High School

Several new students have enrolled recently at Hamlin Junior High School, according to records at the office of Principal Marvin Carlton. Among the new students are:

Sixth Graders — Patricia Kay Harkey, daughter of Mr. and Mrs. A. E. Harkey of 229 Northwest Fourth Street. She attended the May Thompson Elementary School in Los Angeles, California, last year.

Patricia Sue Martin, daughter of Mr. and Mrs. Joseph B. Martin Jr. The Martins live at 44 Northwest Avenue C. Martin is employed by a well servicing company. Patricia Sue attended the Travis Elementary School in Odessa last year.

Cecil Murel Price, son of Mr. and Mrs. Ted C. Price. The Prices live at 503 Northeast Avenue E. Cecil attended school at Ballinger last year.

Ruth Marilyn Maynard is the daughter of Mrs. John Hopkins, and lives with her grandmother, Mrs. A. B. Maynard of 335 Northwest Avenue A. She attended school at Arlington last year.

Seventh Grade. Larry Glen Blackwell is the grandson of Mr. and Mrs. Jess Miller, 150 Northwest Seventh Street. Larry comes from Abilene.

Mary Beth Hall is the daughter of Mr. and Mrs. J. D. Hall. The Halls live at 1013 South Central Avenue. Mary Beth attended school last year at Chula Vista, California.

Karen Diane Thomas is the daughter of Mrs. D. W. Thomas. She lives at 347 Northwest Fourth Street. She attended school last year at Beaumont.

Eighth Grade. Judy Taylor lives with her uncle and aunt, Mr. and Mrs. W. H. Hallmark at Celotex. Judy attended school last year at Odessa.

Paul Wayne Sikes is the son of Mr. and Mrs. N. H. Sikes. The Sikes live in the Neinda community. Last year Paul attended school at Strawn and Anson.

live at 503 Northeast Avenue E. Cecil attended school at Ballinger last year.

OPPORTUNITY FOR BETTER GRAIN PRICES

The Texas farmer has never taken full advantage of the opportunities that hogs offer in increasing his farm income, declare extension specialists. The hog furnishes one of the best means of marketing farm grain.

Many farmers in the Hamlin territory, this year harvesting fairly good grain crops, have the chance of making more from their grain crops than by selling the grain direct, it is pointed out. Pork prices are the highest they have been in several years, further bolstering possibilities in this field.

The average production of corn and grain sorghum for the 10-year period from 1945 to 1954 was 12,000,000 bushels. If only half of this Texas grain were fed to hogs Texas could produce over 4,000,000 hogs per year and Texas farmers would get more money for the grain fed to hogs than for the grain sold for cash.

This method of selling grain may be even more valuable this year. The late growing season and plentiful supply of rain has caused

The Railroad Story

"The railroad story is, in a large sense, the story of America—its history and its people. It is a story of achievement and progress that brought about the greatest transportation system in the world." Thus begins a booklet issued by the school and college service of the Association of American Railroads.

The sheer physical size of the railroad industry is an epic in itself. The total trackage adds up to 369,000 miles—enough track to span the continent 100 times and more. Over this track run nearly 40,000 passenger train cars and more than 2,000,000 freight cars—and it takes some 33,000 locomotives to haul them to their far-flung destinations.

But the significance of the railroads cannot be expressed in figures alone. As the booklet points out, "Production and transportation go hand in hand." The railroads are the artery of our economic life, linking the mills and mines and farms and factories with their markets. The railroads bring raw materials from every reach of the nation to the centers where they are processed into finished goods—and then the finished goods flow out and are made available to consumers everywhere.

Finally, there is nothing static about railroading—or about the railroad plan. Today, for instance, the rails are doing a better and bigger job than ever before—and they are doing it with fewer locomotives and cars. That is the result of new facilities, new methods, new ideas—and the ever present urge to get more service out of every piece of equipment.

An Unfriendly Dog

"The other day," said a friend of ours, "I had an interesting experience with an unfriendly dog. He was standing on the porch of a home when I turned into the front walk and as soon as he saw me he evidently decided that he didn't like my looks. He bristled all over, growled, barked and tried to show me in every way he could that to go near him would cost me dearly.

"But dogs you know, like to bluff and I decided that this one wasn't going to bluff me. I admit I felt a bit nervous but I walked confidently toward him and up the porch steps, paying absolutely no attention to his angry roars. For a moment I thought he was going to leap at me, but he didn't. When he saw me on the porch as though I belonged here he quieted down and looked quite sheepish. But if I had exhibited the least sign of fear I feel quite sure that he would have been napping at my leg.

"And right then it struck me that if you hide my fears you feel, and show confidence in yourself, you can get past lots of difficulties as I got past that dog."

RECALLING Other Years ☆ Being news items taken from old files of Your Home - Town Newspaper, The Herald.

TWENTY YEARS AGO.

Goings-on in the Hamlin community 20 years ago are reflected in the following news briefs, reproduced from the issue of The Hamlin Herald dated September 24, 1937:

W. H. Hall is going about this week with his left arm in a sling. The arm was broken above the wrist last Friday at the Pioneer Gin, where he was working.

Leslie J. Tindal, 30-year-old Hamlin man, was killed Sunday night near Caddo, when the truck trailer on which he was riding turned over and broke Tindal's back. He died on the way to a Breckenridge hospital.

Last Saturday Dr. and Mrs. J. Turner Bynum sailed from Galveston for a 21-day cruise of the South Atlantic—probably to Cuba, Puerto Rico and maybe Panama.

Paul Johnson returned to Alpine Tuesday, where he will begin his senior year at Sul Ross State College.

Mr. and Mrs. B. Hassen went to Haskell Tuesday to visit Mr. and Mrs. S. Hassen, who have just returned from a trip to Europe.

Mrs. Coleman Gibbons of Fort Worth spent the week-end with her parents, Mr. and Mrs. J. C. Greenway.

TEN YEARS AGO.

Among items of interest in the Hamlin area 10 years ago were the following, taken from the issue of The Hamlin Herald dated September 26, 1947:

Kenneth Holloway, Hamlin Future Farmers of America boy, who has been making records in district shows with his Jersey stock, last week won first in the division for a Jersey cow at the Texas State Jersey Show at Waco. He also won other placings with animals at the exhibition.

Cotton pickers have been hard to get recently for the Hamlin territory, farmers report. An investigation this week by Chamber of Commerce leaders revealed that Mexican laborers declare they have passed up Hamlin because no accommodations are provided here for them. Meanwhile, hundreds of bales of cotton remain in the fields because of the lack of pickers.

Hamlin High School Pied Piper football team will open the new grid season tonight against the Market Badgers.

Anna Margaret McBride and W. T. Johnson were married last Wednesday evening in the home of the bride's parents, Mr. and Mrs. L. H. McBride.

FIVE YEARS AGO.

Local happenings in the Hamlin territory five years ago included the following condensed from the issue of The Hamlin Herald dated September 26, 1952:

Some 1,500 tons of alfalfa hay arrived in Jones County this week as the first of shipments of emergency feed being shipped in by the government to be sold to area farmers and ranchers at reduced rates as an emergency measure on account of the drought.

R. T. Spaulding, manager of the Hamlin Chamber of Commerce, was among about 75 area CC officials who attended a meeting in Abilene Tuesday.

Rains first of the week put enough water in the Hamlin South Lake to relieve some of the water shortage suffered by the city for several months. However, city officials decided to continue water shipments from Rule and Rochester until more rains come.

Rev. B. J. Martin of Childress, former pastor of the First Baptist Church in Hamlin, has been stricken by polio and is in a Wichita Falls hospital, it is reported here this week.

ONE YEAR AGO.

Of interest in the Hamlin community a year ago were the news briefs below, reprinted from the issue of The Hamlin Herald dated September 27, 1956:

Many more attendants at the second annual Hamlin High School homecoming are expected states Cliff Reynolds, president of the HHS Ex-Students Association. The gathering is set for October 12 and 13.

Rev. Calvin Bailey of Ranger has accepted the pastorate of the First Baptist Church. He will be in the pulpit October 7 for the first time as pastor.

A womanless style review is set as an entertainment feature Saturday night at Neinda community center.

EVEN THEY DO IT.
 Did you read the sad story of the two couples who loved—in vain?

Better Prices for Livestock Recorded As Reduced Runs Taken to Market

Slaughter calves brought fully 50 cents to \$1 higher prices than the low close of last week at Fort Worth Monday, declares Ted Gouldy, special market reporter for The Herald, in his weekly market summary. The release continues: Cows also sold in a strong to 50 cents higher trade. Stocker and feeder cattle and calves were very scarce, and prices fully steady to strong with considerable inquiry in the trade for thin calves, yearlings and cows suitable to winer in the grain fields.

Fed steers and yearlings were very slow, bids being largely steady with the close last week, and salesmen asking higher prices for the offering.

Receipts in all divisions of the market were sharply curtailed by the general rains over the week-end, and reports to the market indicated pasture men were jubilant over the prospects for making winter feed and in many places low stock water tanks were replenished.

Wheat and oats farmers reported moisture conditions "excellent" and predicted a sharp expansion in the already good demand for cattle and sheep to graze their fields this winter.

The "local" nature of the stocker outlets were pointed out by representatives of Corn Belt interests, who said Western and Northwestern stockers and feeders were moving in numbers and current Texas prices were out of reach of their clients in most cases.

However, these representatives were quick to point out that in much of the Corn Belt the crop is late, and an early frost would mean much "soft" corn. A situation which usually results in a sharp increase in cattle feeding since such corn will not store.

Good and choice slaughter steers and yearlings bulked at \$19 to \$23, and common, plain and medium butcher sorts sold from \$13 to \$18.50.

Fat cows sold from \$12.50 to \$15.50, and canners and cutters drew \$8 to \$12.50. Bulls sold from \$11 to \$16.

Good and choice slaughter calves cashed at \$18.50 to \$21, and a few fancy heavies sold to \$22. Plain and medium slaughter calves sold from \$14 to \$18, and rannies and common sorts sold from \$11 to \$13.

Good and choice stocker steer calves ranged from \$20 to \$23.75, and stocker heifer calves cashed at \$21 down. Stocker steer yearlings sold from \$20.50 downward. Feeder heifers sold from \$17.50 down. Stocker cows cashed at \$10 to \$14.50.

About 10,000 less hogs than a week earlier were reported from around the major marketing circle Monday than a week ago, and the sagging hog market staged a mild rally of 25 cents per 100 at Fort Worth Monday.

Choice butcher hogs scored \$19.25 to \$19.50, and the medium to good variety sold from \$17 to \$19. Sows cashed at \$17.50 to \$18.50.

The trade on sheep and lambs was fully steady, quality considered, and high grade offerings were practically lacking in the offering at Fort Worth Monday.

Medium and good fat lambs sold at \$20 to \$21, and cull and common sorts drew \$15 to \$18. Stocker and feeder lambs sold from \$19 to \$20. Slaughter ewes sold from \$7.50 to \$8.50. Old bucks sold around \$6.

A few stocker ewes in the run sold from \$9 to \$10 on old broken mouths to \$15 or \$16 on a better kind.

Two reports, within a week of each other, arrived in Fort Worth in which well informed persons raised the questions as to whether the cattle population of the United States may not have started upward again this year.

Norman G. Waskinke, publisher

Seventh Graders at Junior High Name Officers for New Year

Officers were named and home room teachers were selected when students of the seventh grade at Hamlin Junior High School were organized several days ago. Officers selected were:

Grade 7a—Lagena Weaver, president; Mark Smith, vice president; Larry Grimm, secretary; Raymond Renfro, treasurer; Larry Stevens and Penny Ford, reporters; Mrs. Ferguson, home room teacher.

Grade 7b—Karen Thomas, president; Mary Hall, vice president; Billie Blankship, secretary; Nancy Stinnett and O. H. Weaver, reporters; Mr. Adams, home room teacher.

Grade 7c—Tommy Shelburne,

Freight Carloadings Of Santa Fe Decline

Freight carloadings for the Santa Fe Railway System for the week ending September 21, 1957, were 21,804 compared with 23,371 for the same week in 1956, reflecting a decline from the year ago figure. Cars received from connections totaled 12,908 compared with 13,251 for the same week in 1956.

Total cars moved were 34,712 compared with 39,622 for the same week in 1956. Santa Fe handled a total of 33,303 cars in the preceding week this year.

President; Darla Hilton, vice president; Mike Martin, secretary; Charlotte Burleson and Julie Daniel, reporters; Mrs. Weldon Johnson, home room teacher.

Big Game Hunter Shows Films for Rotary Luncheon

Roy Tankersley of Knox City, who recently returned from a big game hunt in Africa, brought a vivid story of his safari—in colored films, which he showed at the Wednesday noon luncheon of Hamlin Rotary Club as the program feature. The session was at the oil mill guest house.

Tankersley, who was accompanied by a Baird friend, declared that wild game was abundant in Africa, although much of it is being protected from hunters in preserves. However, there was plenty to hunt, he said.

The pictures showed scenes taken at Cairo, Egypt, where the party landed, then traced the trip several hundred miles south into the wilds of the Dark Continent. The pictures showed the hunters stalking and killing wildebeests, baboons, ducks, foxes, zebras, water buffaloes, lampalas, antelope, lions, deer and other game.

Final plans for the thirtieth anniversary ladies' night of Hamlin Rotary Club were announced by Tommy Davis, program and arrangements committee chairman for the event.

Besides Tankersley, other guests at the Wednesday luncheon included Lee Belew, Ronald Kinsey and Charles W. Welch of Sweetwater; Curtis Wedeking, Tony Reector and W. M. Blackburn of Stamford; Hugh Taylor and Max West of Snyder; Shanley Simpson of Houston; Everett Gibson and Bill Murff Jr. of Hamlin.

Hamlin Nurses Asked To Join Stamford Unit

Nurses of Hamlin, Anson, Haskell have been asked to join the Stamford licensed vocational nurse unit, which was recently organized at Stamford.

Membership of 25 nurses was necessary to receive a charter for the organization. Several Hamlin nurses recently attended a meeting of the Stamford unit.

TEXAS DAIRY PRINCESS—Barbara Frasher, 20-year-old blue-eyed blonde of Gainesville, is crowned Texas Dairy Princess at Austin by Lois Jean Walshak (left), last year's princess. Barbara, a senior at Baylor University, will represent Texas at the American Dairy Princess contest in Chicago in October.

Great Advances Being Recorded by Research in Public Health Channels

A wise man once said, "Who would not give a trifle to prevent what he would give a thousand words to cure?"

These words take on a great deal of meaning when viewed in the light of the many advances in medicine and public health made in the last 50 years in the United States and throughout the world.

Medical research has brought about many outstanding drugs and spectacular operations which save individual lives and relieve suffering, but more outstanding and spectacular are the advances in preventive medicine that have

been made which stop suffering before it starts—the proverbial "stitch in time."

Economically speaking, preventive medicine has saved the people of the United States countless dollars. One example is retrolental fibroplasia, an eye condition marked by the formation of fibrous tissue behind the crystalline lens. It is seen in many prematurely born babies and causes partial or total blindness.

For years the disease was believed to be a result of premature births. However, a study supported by both federal and private financing established the cause of the trouble as due to the faulty administration of oxygen (used extensively in incubators for premature infants).

This study cost approximately \$50,000. Today there are about 5,000 blind children in the United States who are victims of retrolental fibroplasia. Each child will cost an estimated \$100,000 each for education, training and support from birth to death—or a grand total of \$500,000,000.

Thus, the cost of care for 5,000 children will be, for our generation, 100,000 times the cost of the prevention for the future.

Advances in public health, coupled with the discovery of wonder drugs, raised the life expectancy for persons now born over 70 years of age. In the 17-year period between 1937 and 1954 it increased 9.6 years.

This means that in 1955 alone, through this decline in the death rate, over 70,000,000 additional federal income taxes was received by the government, to say nothing of the earning power and productivity from an increased span of life.

There is no doubt about it: Public health and research pay off!

New Egg Law Will Regulate Marking For Market Sales

The Texas egg law, which becomes effective August 22, may be "just what the doctor ordered" to assure Texas consumers that high quality eggs are being placed on the market for sale.

The effect of the law will not only be felt by consumers, but by producers and other industry men as well, according to F. Z. Beanblossom, extension poultry marketing specialist.

This law, says Beanblossom, provides primarily for inspection and careful labeling of all eggs that are to be sold on grade. The eggs are inspected primarily at retail outlets and if sold on grade are labelled according to size and quality. Ungraded eggs must be so labelled.

It shall also be unlawful to sell or advertise shell eggs below the quality of Grade A as "fresh," "selected," "cage," "infertile," "new laid" or other words of similar import.

Producers of eggs who sell only the production of their own flocks are exempt from the law unless they sell on the basis of grade; then their eggs must meet the standards specified by the law.

The deadline for obtaining licenses by dealers, retailers, wholesalers, brokers and processors is October 20. There is no fee to any retailer, as defined by the law—that is, any person selling or offering for sale eggs to consumers only in this state.

Actual enforcement of the new law will start on February 17, 1958.

First of New Series of School Assemblies To Feature Archer

First in the new series of national school assembly programs sponsored by Hamlin High School will be presented next Wednesday afternoon, October 2, at 2:00 o'clock, it is announced by school officials.

Designed principally for students, the program also are open for public attendance. Student tickets are 10 cents each performance.

Featured in next Wednesday's program will be Duke Gordon, way through a presentation as who shoots his way through a entertaining as it is informative.

An expert with the bow and arrow, Duke Gordon has long been active in archery circles. In national championship competition, in organization of archery clubs, in stimulating interest among youth and in writing articles on the subject, Duke has established an enviable reputation.

STILL FIRING AWAY.

"So your husband is one of the big guns of industry?"

"Yes, he's been fired seven times."

Wealthy Can Give Away Near Fortune Without Gift Taxes

A lot of folks are surprised to find out that (if you are rich enough) you can give away a lot of money without paying federal gift taxes, reminds Tax Man Sam in a release to The Herald.

Every person has a \$30,000 specific lifetime exemption that they can give away without paying a gift tax. They can also give away \$3,000 a year to as many different people as they can afford without paying any gift taxes, with some exceptions. How much you can give away without paying taxes, as long as you do it more than three years before you die, is brought out by this example:

John and Mary have struck oil. They have five children and 20 grandchildren. They can give away \$30,000 each or \$60,000 under their specific lifetime exemption. They can also give each of their children and/or their children's husband or wife and each of their grandchildren, or a total of 30 people, \$3,000 each or \$60,000 per year that John and Mary can give to their children and grandchildren tax free.

During the first year John and Mary could give as much as \$240,000 under the circumstance cited above tax free. Each year thereafter they would be limited to the \$180,000 unless they choose to pay gift tax. It is too bad we are not one of the children.

Go to The Herald for pen refills.

Sixth Grade Classes Elect Year's Officers At Organization Meet

Sixth grade classes at Hamlin Junior High School recently were organized. The following officers and home room teachers were selected:

Grade 6a—Sue Johnson, president; Nicky Moore, vice president; Diane Bond, secretary-treasurer; Jaylon Fincannon and Ronnie Sipe, reporters; Mrs. E. N. Jenkins, home room teacher.

Grade 6b—Cleon Warner, president; Don Houghton, vice president; Cheryl Brown, secretary-treasurer; Kay McCoy, reporter; Lola Milstead, home room teacher.

Grade 6c—Marilyn Maynard, president; Walter (Speck) Cox, vice president; Jean Wells, secretary-treasurer; David Bingham and Ronnie Teichelman, reporters; Mrs. Dudley Griggs, home room teacher.

Work Underway on McCaulley Annual

Work has already begun on the 1957-58 yearbook of the McCaulley High School. Solicitors were in Hamlin last week and this week selling ads in the annual.

TELEPHONE TALK

by Jim Garrett, Manager

Long Distance Back to Normal

For four days last week you might have had some trouble placing your long distance calls. This was due to a strike by Western Electric Company installers. Picket lines were fixed at 6:00 a. m. September 18, in all telephone buildings where Western Electric Company was working. Southwestern Bell employees, including operators and central office workmen, did not cross the picket lines.

In this immediate area the Abilene and Sweetwater offices were affected. If you had a call which was routed through one of those offices you probably had a delay in getting your call through and at the same time had to listen to a gruff operator's voice. Almost all calls were handled by a male operator. Picket lines were removed early Friday a. m. and we are glad service is back to normal again.

Safely Back to School

Well, it's September and school bells are ringing again. It's a good time of year to remind ourselves to be even more cautious in our driving—especially until we get accustomed again to "school stops" and small fry pedestrians.

Here at the telephone company, we've always stressed safe driving—"safety consciousness" as well as care and skill handling our ears and trucks.

Telephone men like F. E. Turner, Wilton Hayes and Melvin Scott deserve much credit. Year in and year out, they drive 10,000 or more "safe" miles. Thanks to their records and similar ones established by telephone drivers in other cities, Southwestern Bell again won the National Safety Council's Award of Honor in 1956.

Don't Run! Reach!

Next time your telephone rings, think about this: Can you reach out and answer it . . . or do you have to run for it? Is it handy? Or is it in some out-of-the-way place? Maybe even on a different floor?

The cost of having telephones wherever you need them around the house is surprisingly low, especially in comparison to the comfort and convenience they give you.

Each extension phone costs only \$1.00 a month plus a one-time installation charge.

Why don't you call or come by the telephone business office? Let us help you plan complete, convenient telephone service. More and more people are learning the modern idea is to have phones within easy reach.

Call by number. It's twice as fast.

SOUTHWESTERN BELL TELEPHONE COMPANY

The Herald's Page for Women

Herald Building

State Capitol NEWS

By Vern Sanford, Manager,
Texas Press Association.

Austin.—"Tickets" for Texas 1958 political bouts go on sale next week. Poll taxes, \$1.75 each, can be bought from October 1 until January 31.

Holders of the small white tax receipts not only can watch, but participate in the semi-annual struggle to decide who will be "top dog" for the next two years. In the ring will be contenders for the offices now held by U. S. Senator Ralph Yarborough, Governor Price Daniel, Lieutenant Governor Ben Ramsey, and so on down the line.

"Ticket" holders also can attend their Democratic party precinct conventions next May, where the first round of a fight for party control will be staged.

Assuming you have \$1.75, paying a poll tax should be hard. Dozens of groups—Jaycees, labor unions, women voters, etc.—plan massive drives. Most voters probably will be able to find a poll tax selling both within blocks.

Exact number of potential voters is not known, of course. But some civic leaders hope as many as 5,000,000 persons will pay poll taxes. Previous record is a total of 2,410,188 for 1956, a presidential election year.

Another peak is expected in 1960 when census projections show more than 5,500,000 should be eligible to vote in Texas.

Oil Quotas Sag.—Lean days are ahead for Texas' top industry—oil.

After three months on an all-time low producing pattern of 13 days, the Texas Railroad Commission cut the October production to 12 days. Daily allowable will be 2,954,062 barrels.

Major oil buyers at the commission hearing indicated that any more production would result in an over-supply.

For a state heavily dependent on oil tax revenue and already faced with fiscal problems, the oil cut means tough times for the state budgeters.

More Taxes, Says Board.—Even before the oil slash, the Legislative Budget Board had some hard facts to share with the Texas taxpayers.

By 1958, says the board, the average Texan will pay 6.4 cents of each dollar he earns in state taxes. This is compared to 5.3 cents per dollar in 1957.

It's the inevitable result of a billion-dollar-a-year budget, says the fiscal experts. They attribute the soaring expenses to inflation and citizen demand for more government services.

As to paying for it, the board says, "All taxes ultimately come from the individual. There's no one else to pay them."

On the brighter side, State Comptroller Robert S. Calvert reported the state started the new fiscal year this fall in the black. Calvert's report showed Texas took in approximately \$100,000,000 more than it spent up to August 31.

"Bug" on the Loose.—In public schools, colleges, offices—even in jails—over Texas, thousands of people are abed.

Nearly 3,000 cases, with flu-like symptoms, have been reported to the State Health Department. Finding out whether its Asian flu requires special tests. Health department offices are swamped with specimens and requests for tests.

Whatever the disease, it meant

that football games and other school activities had to be called off in a number of areas.

So far, only a dribble of Asian flu vaccine has come to Texas.

Dr. Henry Holle, health commissioner, urges these precautions for the general public:

1. Stay away from crowds.
2. Drink plenty of liquids—fruit juices and water.
3. Go to bed at the first sign of symptoms. (Symptoms are fever, chills, headache, sore throat and aching back and limbs).

Demos Have Choice.—In some areas people contributing to the October 11-12 Dollars for Democrats drive can choose where they want their money to go.

One set of fund-seekers will be working at the behest of the official Texas organization, the state Democratic executive committee. In accordance with a formula set up by national officials, they will keep two-thirds of what they collect for Texas work, send one-third to national headquarters.

Workers for the liberal minded Democrats of Texas, at odds with official party leaders, say they will turn no money over to the state office. All DOT collections are to go to national.

Push for Water.—Activity toward a state-wide water development program moves forward.

Members of the governor's citizens' water planning committee are receiving information kits. Material is to be used in a campaign for adoption of the \$200,000,000 water bond amendment.

Governor Daniel also announced the three representatives who will be in charge of getting water planning legislation through the House during the special session. They are Representatives W. N. (Bill) Woolsey of Corpus Christi, Leroy Saul of Kress and Bill Shaw of Forney.

At the third annual Water for Texas conference at College Station, Gibb Gilchrist, conference founder, called creation of one central water agency as the state's greatest need.

More Appointments.—Governor Daniel's appointment list grows. Recent additions to state government:

A. H. (Kerry) Knippa of San Antonio to the building and loan section of the State Finance Commission.

E. L. Jackson of Cisco and John E. McKelvey of Electra to the State Veterans Affairs Commission.

Joe C. Carrington of Austin to the Commission on Alcoholism. John E. Lowe of Vidor, R. B. Rabb of Point and Carroll Swearingen of Quitman to the Sabine River Authority.

Raphael Wilson of Austin and Dr. Paul C. Witt of Abilene to the Board of Examiners in Basic Sciences.

Mrs. Marie Hudson of Austin to the Firemen's Pension Commission.

EVER CAUTIOUS.

A retired banker decided to operate a filling station. His first customer was a farmer he had known and to whom he had loaned money for years.

Farmer—"Fill 'er up."

Ex-Banker—"How far are you going?"

Farmer—"Over to Troy and back—about 60 miles."

Ex-Banker—"I think you can make it on four gallons or a little more, but I'll let you have an even five."

KERRY DRAKE

Dividends Declared By Celotex Concern

Directors of the Celotex Corporation this week declared quarterly dividends on the company's common and preferred stock for the quarter ending October 31, 1957, according to a release to The Herald from Chicago.

The dividends are 60 cents a share on common stock and 25 cents a share on preferred stock, both payable October 31 to stockholders of record at the close of business October 8, 1957.

An electric eel can discharge enough electricity to knock down a man.

SQUELCHED.

During one of the discourses in the school of divinity at Duke University at Durham, North Carolina, the subject at hand was the scripture pertaining to a fool and his money being soon parted.

One of the freshmen of the class asked the professor, a Dr. White, "Sir, if the man was a fool, how did he get his money in the first place?"

The good professor answered: "He was a Duke University freshman, and his daddy sent him the money."

It was reported that the student was a model learner from that day forth.

August Milk Price For Area Set at \$5.63

Minimum uniform price paid for 4.0 per cent milk received by Central West Texas handlers from producers during August was \$5.63 per 100, according to announcement by Byford W. Bain, market administrator. A number of producers are in the Hamlin area.

Daily Class I sales by Central West Texas handlers during August were 1.52 per cent more than during July, 1957, and 7.54 per cent more than the daily sales during August, 1956.

Nile River, longest in Africa, extends for 4,160 miles.

SIMPLE SOCK DRESS.

A headliner on college campuses this fall will be the sock dress—a woven wool jersey dress knitted in Argyle sock pattern, made on the simplest possible lines, like an elongated sweater with draw-string belt.

TURN ABOUT.

Little Janice had forgotten her friend's birthday, so she wrote her a note of apology.

"I have no excuse for forgetting, and it would serve me right if you forgot my birthday next Tuesday."

Next total eclipse of the sun will be October 12, 1958.

Pied Pipers Head for Rotan Friday for Year's Fourth Tilt

Pipers Doped to Take First Loop Fracas Friday

Fourth in a series of five non-conference football games for the Hamlin High School Pied Pipers is scheduled tomorrow (Friday) on the Hamlin grid, and Head Coach D. C. Andrews says his boys are ready and rearing to go toward victory. Dopesters place Hamlin superior to the Yellowhammers.

Hamlin, with two victories and a tie to their credit, the Pipers have a better record than their Class A opponent, which has lost two games already.

Rotan's Yellowhammers, who before last season were in district competition with Hamlin, has a club that is light but fast. They lost last Friday by a 34 to 0 score to the superior Haskell Indians.

Coach Andrews says his team generally is in good shape. Michael Brandon is still limping a little from his ankle injury, but will be in the game. Quarterback Jimmy Bryson has missed some work-outs this week with a knee injury, but will see some duty in Friday's game, Andrews says.

Reserved Seat Tickets For Rotan Tilt on Sale

Reserved seat tickets at the Rotan stadium for the Rotan-Hamlin football game tomorrow (Friday) night are on sale at the three Hamlin drug stores, it was announced Tuesday.

Price for reserved seat tickets is \$1.25 per person, said B. N. Newberry, high school principal, who said general admission tickets may be bought at the game.

FAIRWAY WARNING.

Sign posted on a Scottish golf course: "Members will kindly refrain from picking up lost balls until they have stopped rolling."

DISTRICT 4-AA STANDINGS

Seymour and Stamford again are sharing top spot in District 4-AA standings after three games have been reeled off by all five members of the loop. Hamlin is in third place with an .833 percentage, its tie with Spur marring the record.

After the week-end games, the standings look like this:

Team—	P.	W.	L.	T.	Pct.
Seymour	3	3	0	0	1.000
Stamford	3	3	0	0	1.000
Hamlin	3	2	0	1	.833
Anson	3	1	1	1	.500
Haskell	3	1	2	0	.333

Results Last Week.

Stamford 26, Slaton 0.
Seymour 46, Burk Burnett 20.
Hamlin 27, Merkel 7.
Haskell 34, Rotan 0.
Anson 0, Spur 0.

Where They Play Friday.

Sweetwater at Stamford.
Electra at Seymour.
Haskell at Iowa Park.
Hamlin at Rotan.
Anson at Cisco.

Hamlin B Team Drops Tilt to Sophomores of Abilene by 47 to 19

Hamlin High School's B team lost their first game of the season last Thursday night to a strong Abilene Sophomore squad by a 47 to 19 score. The tilt was played at Abilene Fair Park stadium.

Wesley Cummings and Billy Hallmark scored the three Hamlin touchdowns, with Cummings accounting for two of them. Jimmy Hill ran the two extra points. Abilene had a 20 to 13 lead at the half, but in the third quarter Hamlin fell asleep and Abilene scored 20 points to seven for Hamlin.

Boys who played for the B crew were Jimmy Hill, Mike Bond, Wesley Cummings, Robert Brandon, Tobe Shields, Gary Cooper,

Jones County Golf Tourney to Draw Golfers to Hamlin

Golfers from seven area towns are scheduled to participate this week-end in the annual Jones County Golf Tournament at the Lakeview Golf Club, southwest of Hamlin, according to B. O. Bell, president of the club.

The tournament, which will be played in probably five flights, is being directed by Jim Howard King.

Trophies and golf equipment will be offered as prizes to the winners of the various flights, it is announced by King.

Golfers from Lueders, Hawley, Avoca, Stamford, Anson, Aspermont and Rotan have indicated they will participate. Qualifying rounds are to be played Thursday and Friday, and matched play will be run off Saturday and Sunday. An entrance fee of \$5 is to be posted by all entrants.

Women and wives of local golfers plan to serve lunch at the golf club Sunday, for which a nominal charge will be made, King declares.

Bell reports the Lakeview Golf Club course is in the best shape it has been for several years, and good scores are prophesied for the golfers participating in the tournament.

James Boyd Playing With McMurtry Crew

A former high school student, James Boyd, figures prominently in Coach Tommy Ellis' plans this year for the McMurtry College Indians, according to a release from Abilene.

Boyd, five feet 10 inches high, weighing 175 pounds, is a right halfback, and is expected to see plenty of action this year.

The 20-year-old back, a junior, is the son of Mr. and Mrs. R. I. Boyd of Hamlin.

Joe Kraft, Gary Williams, Ronnie Rowland, David Bonds, Bobby Ellison, Jerald McCanles, Dwight Griggs, Judy Ford, Terry Scott, Roland Riveria, Jimmy Beasley, Richard Winegart, Wayne Boatwright, Charles Bennett, Larry Upshaw and Dale Ponder.

The B squad will play the Anson Bs this (Thursday) evening at Anson.

Frankie Lee Has Field Day as Mice Beat Albany 19-6

Led by the hard running of Frankie Lee, the Hamlin Junior High gridders started the season off on the right foot last Tuesday night with a 19 to 6 win over the Albany Juniors. Frankie Lee tallied all 19 points for the Hamlin boys.

Hamlin scored once in the first quarter, once in the second and again in the final minute of the game. Hamlin threw up a star-born defense to contain the Albany boys until the kick-off after the third Hamlin touchdown.

Albany fielded a team considerably smaller than the Hamlin boys but nearly made up for their disadvantage by showing exceptionally fine blocking and play execution. Albany's No. 10 turned in an exceptional game.

Playing good ball for the Hamlin aggregation were Lee, Baize, Richey and Shields in the backfield, with Stanley Austin and Jimmy Cooper being stand-outs in the line.

Piper Get Back in Win Column with Merkel Victory

Hamlin High School's Pied Pipers got back into the win column last Friday night by taking a 27 to 7 decision over the strong Class A Merkel Badgers in a tilt played on the Badger grid. It was Hamlin's second win of the season out of three starts.

Several hundred student and adult fans of the Pied Pipers went to see the game, most of them going as part of the caravan organized by the Pied Piper Booster Club.

The Merkel tilt was another non-conference game, but it provided a good test of Coach D. C. Andrews' charges.

First touchdown was registered by Bill Muff on a end sweep that was good for eight yards. Two passes snagged by End Charles Jenkins that were good for 35 and 50 yards set up the score. Lanier Foster booted the extra point.

The score was in the second quarter, and the half ended 7 to 0. Halfback Virgil Wilson skirted the right end for 20 yards on the second marker in the third quarter, and Foster again converted with a boot between the uprights.

Third score for Hamlin came early in the fourth quarter when John Richey pushed through the line for four yards, and again the extra point was booted by Foster.

Merkel pushed over a touchdown middle of the fourth quarter and made the extra point.

Wilson again scampered down the field for a 70-yard touchdown as he went over left tackle and followed good blocking to the double stripe. Foster failed in the conversion attempt.

People of Area Will Attend Texas Prison Rodeo in October

Hamlin area residents will be among attendants at the twenty-sixth annual Texas Prison Rodeo which looms again with the anxious anticipation of countless avid rodeo fans and convict contestants alike.

Consistent top money winners in the prison rodeo are eagerly awaiting the opening date, October 6, to test again their nerve and skill against the brawn and savagery of the wildest rodeo stock available.

Anson Tilt Tuesday To Test Junior Squad

Coach Harry Martin is getting his Hamlin Junior High School gridders ready for their most severe test of the season, when they meet the Anson Juniors next Tuesday night at Hamlin.

Anson is doped as the team to beat in the conference this year, according to those in the know. Game time will be 7:00 p. m. at Pied Piper stadium.

District 4-AA Teams Do Better in Tilts Last Week-End with Four Wins and Tie

Football teams of District 4-AA did a little better last week-end with non-conference foes than they had done the two previous weeks, winning four and tying one of the five tilts played, to boost their pre-conference percentages.

Stamford Bulldogs won their thirty-fifth straight victory with a 26 to 0 victory over the Slaton Tigers. The Seymour Panthers slapped the boys of Burk Burnett with a 46 to 20 win to also maintain a perfect record. Hamlin's Pied Pipers took their third game of the season with a 27 to 7 win over Merkel to stay in third place.

Anson, having the same luck with a strong Spur Bulldog crew as did the Pipers, wound up their tilt with a 0 to 0 tie. Haskell Indians, with two previous losses this year, ran over the Rotan Yellowhammers 34 to 0.

Stamford, riding high on last year's AA championship record, soundly trounced the Slaton boys with a 26 to 0 shut-out in a tilt played at Stamford. Scoring for the Bulldogs were Charlie Helmer, Fred Upshaw and Duane Lindsey, and Rufion Escobedo covered a fumble in the Slaton end zone for the fourth marker. Stamford made 11 first downs to seven for Slaton.

Particulars on the Seymour 46 to 20 victory over the Burk Burnett crew were not available. This was the third straight win for the strong Seymour aggregation, that has been doped to take the district championship this season.

Hamlin Holds Lead in District League for Junior High Schools

Hamlin easily commanded the lead spot in the area Junior High Conference after the first week of play. The standings looked like this:

Team—	P.	W.	L.	T.	Pct.
Hamlin	1	1	0	0	1.000
Merkel	1	0	0	1	.500
Rotan	1	0	0	1	.500
Albany	1	0	1	0	.000
Anson	0	0	0	0	.000

Last Week's Results.

Woman of Stamford Wins Hamlin Golf Tournament Recently

Forty-three women golf players from Stamford, Sweetwater, Abilene, Graham, Breckenridge and Snyder participated in the annual women's golf tournament sponsored last Tuesday by women of the Lakeview Golf Club of Hamlin.

Opal Vaden of Stamford won championship honors for 18 holes of play. Two 18-hole flights and two nine-hole flights were reeled off during the day.

Runner-up in the championship flight was Hannah Supumur of Sweetwater and Nita Jackson of Stamford.

Winners of the first flight 18-hole matches were Joyce Knabel and Letha Brannon of Hamlin. In the first flight nine-hole matches Peggy Groves of Graham and Lera Hogan of Snyder and Boots Shaw of Graham led the field. In the second flight nine-hole play Fern Harris and Ester Lee Armstrong, both of Sweetwater, had low scores.

Winners of low putts were: In the 18-hole matches, Letha Brannon; and in the nine-hole play,

Hunters Warned to Plug Auto Shotguns

Hunters of the Hamlin area were warned this week against hunting with shotguns holding more than three cartridges, two in the magazine and one in the barrel. The warning came from the game warden of this area.

This regulation applies to both quail and migratory waterfowl this year, the warden said.

"Most shotguns come from the factory equipped with a wooden plug which can be inserted in the magazine," the warden said. "If your gun has not been plugged already, either take it by a sporting goods store and have it plugged or buy a plug."

A piece of wooden dowel also can be used to plug the guns, he said.

BIG GATE AT GAME.

The crowd at the Hamlin-Albany game last Tuesday night was one of the largest ever to see a junior high game in Hamlin, reports Principal Marvin Carlton. Gate receipts totaled \$130, he said.

Peggy Groves. In the hole-outs Peggy Groves and Tillie Smith were winners.

COAST-TO-COAST ECONOMY RUN PROVES IT—CHEVY COSTS LESS TO DRIVE!

Test run from Los Angeles to New York by the three leading low-priced cars showed Chevrolet costs less to operate, with up to 17% greater fuel economy!

When fuel and operating costs for cars are officially checked from Los Angeles to New York, that's an economy comparison! And what happened?

In certified NATA* findings, Chevy delivered up to 17% greater fuel economy, and lower total cost for the trip—proof that Chevrolet costs least to operate of the three leading low-priced cars that were tested! But that's not surprising. You expect Chevrolet engines to wring extra miles out of a gallon of gas—just as you expect finer craftsmanship in the way a Chevy is built. Better see your Chevrolet dealer soon!

Reduction in Federal Budget Means Difference to Taxpayers of Territory

As little as one might think of it, the recent reductions in the federal budget will mean savings to the individual taxpayer right here in the Hamlin territory.

The West Texas Chamber of Commerce this week reported that Texas taxpayers will eventually save \$219,500,000 through the \$5,000,000,000 in the appropriation cuts effected in the 1958 federal budget.

The estimate was based on the West Texas CC calculations that Texas taxpayers bear 4.39 per cent of all federal taxes.

The overall reduction is almost identical to the \$4,900,000,000 figure which the WTCC had predicted in early June as a "reasonable expectancy" for a final result of congressional and executive actions in cutting the budget.

The regional chamber credited "the unprecedented volume and persistence of public criticism" of the president's 1958 budget with producing "substantial results."

"The criticisms generated widespread demands for economy at the grass roots which built up in Congress the strongest and most lasting economy wave in a decade and produced a noticeable effect on the administration."

The regional chamber's analysis made these five points in measuring the results of budget cutting in relation to the \$73,000,000,000 of appropriations and other spending authority requested in the budget:

1. Reductions totaling \$1,200,000,000 which were made by the president himself from appropriations proposed in his budget and which were agreed to by Congress.

2. Aggregate reductions of \$4,800,000,000 made by Congress from the revised appropriations requests submitted to Congress by the president. Of this total about \$1,600,000,000 will not necessarily result in eventual savings, leaving a total of \$3,300,000,000 in effective reductions.

3. A net reduction of \$500,000,000 in budgeted appropriations resulting from congressional actions on proposed legislation. A total of \$1,300,000,000 in appropriations was cut by congressional action on six major legislative proposals included in the budget. But this total was offset in the amount of \$800,000,000 by Congress' approval of increased benefits for veterans not proposed in the budget and by failure of Congress to vote postal rate increases proposed in the budget.

4. The net reductions shown in the three paragraphs above total \$5,000,000,000. This amount could later be offset in some degree through operation of the housing act of 1957 in which Congress approved almost \$1,000,000,000 more spending authority than was proposed in the budget. The president has indicated, however, that he does not intend to use this excess authority.

5. The president prevented almost \$1,100,000,000 of additional new spending authority approved by Congress from going into effect. He did this by vetoing bills passed by Congress at the close of the session which raised salaries of federal employees at a cost of \$850,000,000 a year and provided a \$210,000,000 loan program for veterans' housing.

The regional chamber pointed out that not much more than \$1,000,000,000 of the \$5,000,000,000 total cuts will serve to reduce federal spending in 1958 because at least 75 per cent of the appropriations cut were not scheduled to be actually spent until 1959

or later. The WTCC added the remainder will have the effect of cutting future expenditures below what they would otherwise be.

FIRST THINGS FIRST.

A story is making the rounds in Alabama about the dyed-in-the-wool Dixiecrat who attended a meeting at which candidates for delegate to the national convention outlined their views.

When all had spoken, a friend asked, "Well, what do you think now, Lem?"

"Think?" exclaimed the Dixiecrat. "I didn't come here to think. I came here to holler!"

Cork comes from the outer bark of a species of oak found in the Mediterranean area.

PERSUASIVE.

"Well," said Jack, "Joe finally married that red head."

"What got into him?" queried Bill.

"Buckshot!" replied Jack.

The state crown of England contains 6,170 diamonds, including one of 34 carats.

OBVIOUS OMISSION.

The sign in the window of the highway diner read: "\$500 to the truck driver who orders something we can't furnish."

A hungry driver sat down at a table and said to the waitress, "Bring me an elephant ear sandwich."

Hurrying to the kitchen she said to the chef, "Better get ready to fork over 500 clams. There's a truck jockey outside who wants an elephant ear sandwich."

"What?" bellowed the chef, "you mean to tell me we're out of elephant ears?"

"No, we're not out of elephant ears," replied the waitress, "but we ain't got no more of them big buns."

A CAD, F'GAD.

"Traveling Salesman — "I miss my wife's cooking."

Home Business Firms Give Us

Values

that Nobody Else Can Match !

It's a fact . . . our home merchants and service establishments give us a special type of Bargain every time we spend a dollar with them.

And no competitor of theirs in another town or city can give us . . . who live in this area . . . anything like as good a deal.

It's simple economics: the dollar we spend at home buys about the same goods that it will buy anywhere else . . . but . . . to make every purchase at home a better bargain, we also get to share in, and to profit from the more prosperous community that larger trade volume naturally builds.

And this Extra Value . . . which we do not get when we spend our money in somebody else's community . . . is the real key to our own greater individual prosperity and enjoyment of life.

Trade in Hamlin

... where you share in the prosperity that your trade creates

It Pays to Buy Where You Live!

Of all the business establishments in the world—only those in Hamlin are sincerely interested in the future of Hamlin and in the future of YOU who live here . . .

Officers Elected by Eighth Graders as Classes Organized

Eighth grade classes at Hamlin Junior High School recently organized. Officers elected and the home room teachers named are as follows:

Grade 8a—Bill Richey, president; Tommy Sewell, vice president; Mary Smith, secretary-treasurer; Linda Bingham and Wayne Balze, reporters.

Grade 8b—Stanley Austin, president; Babe Shields, vice president; Carolyn Sue Ray, secretary-treasurer; Laverne Williams and Alvin Houghton, reporters; Mrs. Lewis, home room teacher.

Grade 8c—Max Cowan, president; Bobby Woolf, vice president; Janice Wilgus, secretary; Jerry Warnell and Velta Hastings, reporters; Coach Harry Martin, home room teacher.

Home One of Most Hazardous Places For Accidents, Safety Official Says

"If you want to be safe—leave home!" This startling remark was made this week by J. O. Musick, general manager of the Texas Safety Association, who added: "Accidents in the home accounted for the death of 28,000 Americans in 1956 and 4,300,000 injuries. This places the home second only to motor vehicles in accidental deaths, and makes the home the most hazardous area known for injuries."

Musick made his statements in conjunction with the announcement that TSA, working with the National Safety Council, has just completed mailing the 1956 Home Safety Inventory reports.

The inventory is a nation-wide accounting of home safety activities conducted by various local safety organizations throughout the United States. Texas, for example, had a total of 132 returns to inventory questionnaires in the 1956 report—Fort Worth had the largest response from safety groups of any city in the state.

From these reports TSA and

Good Reports Being Received on Tests of Hybrid Maize in Area

Results of hybrid maize test plots are being received by the county agent's office, according to Bill Lehmburg, county agent, and Ray Walker, junior assistant agent.

Woodrow Bagley of Radium has reported 1,700 pounds of 610, 1,300 pounds of 620, and 1,200 pounds of Martin's per acre from his test plots.

A report received from Webb Beauchamp shows 1,700 pounds of C44A and 1,200 pounds of Martin's per acre.

There have not been enough reports submitted yet to show definitely whether the hybrids will outyield the standard varieties, but as more reports are received more definite conclusions can be made and will be reported, say the agents.

IN SHOW—Cheryl Graham of Tyler will open the road show of "Pajama Game" in Johannesburg, South Africa, in November for a five-month engagement. Miss Graham will play the role of Gladys, in which she was cast for the last four months of the Broadway run. Miss Graham is well known to Texas audiences, having played a number of State Fair musicals.

Gas Official Urges Check of Stoves For Winter Season

Now is the time for homemakers to have their gas heating equipment inspected and adjusted for winter use, it was pointed out this week by Lester Minton, Lone Star Gas Company manager. He urged people not to depend on the first cold day to remind them to call for such service.

"Heating service companies and Lone Star," he said, "receive hundreds of calls for service within a period of a few hours on the day cold weather makes its first appearance. This means a considerable delay in filling many individual service orders."

He suggested that users of gas floor furnaces, wall heaters, unit heaters, central heating plants and other gas heating equipment arrange now to have them inspected and adjusted by calling their heating equipment company or Lone Star Gas Company.

"In this way," he added, "the comfort of the entire family will be assured during the cold weather that is sure to come. And the homeowner will have this important service completed and out of the way."

Distemper is commonly considered a form of influenza.

Pastor at Anson Named Moderator By Area Baptists

Rev. James Easterwood, pastor of the First Baptist Church in Anson, was named moderator of the Jones County Baptist Association for the coming year in final business session of the annual session of the unit held last Tuesday with the First Baptist Church in Hamlin.

Rev. Jack Sutherland, pastor of Stamford First Baptist Church, was named vice moderator. Rev. Woodrow McHugh, pastor of the North Central Avenue Baptist Church in Hamlin, was elected associational clerk, and Rev. Cecil Foster of Bethel Church was made corresponding secretary. C. E. Bennett of Anson was reelected as treasurer.

Good reports of work during the past church year were made by representatives from the 29 Southern Baptist Convention congregations of the county during the convention sessions, which began Tuesday morning and continued until Tuesday evening at 9:00 o'clock.

Theme for the annual conference was "Onward, Upward, Outward."

Dr. Arthur B. Rutledge, secretary of stewardship and direct missions of the Baptist General Convention of Texas, was a key speaker of the gathering.

Can Others Trust Your Driving for Sake of Safety?

"Are others safe in trusting their safety to you?" This question was asked this week by J. O. Musick, general manager of the Texas Safety Association.

"Many persons," he added, "seem to forget that every time a driver gets behind the steering wheel of a car, literally hundreds of people will depend upon his good judgment for their safety."

Musick was speaking in behalf of TSA's summer slow-down-and-live campaign which is a part of the 1957 back the attack on traffic accidents program.

He also asked drivers to recall the traffic accidents which took the lives of 12 Texas' drivers in 1957 on the fourth of July.

For an all-around safer driving record, Musick suggested the following precautions to be taken:

1. First of all, a good healthy helping of common sense with a constant awareness that there is danger in nearly everything you are likely to be doing.
2. If you will be on the highways, limit the miles you plan to cover in one day's driving and be prepared for heavy traffic.
3. Get an early start and pause for rest occasionally.
4. Keep your speed down, but don't be a slow-poke and, of course, don't drink and drive.
5. Be courteous on the road—courtesy is a sign of intelligence.
6. Follow the safety rules of swimming, picnicking and sun-play. Don't over-do.

County Agent Gives Pointers on Control of White Grubs in Lawn

Is your lawn dying in spots or all over? If it is, there is a good chance that it is infested with white grubs, according to Bill Lehmburg, county agent, and Ray Walker, junior assistant agent.

These grubs are white with brown heads and six legs, and about one to one and one-half inches long. They feed on the roots and underground parts of the grass, causing it to die.

To check for them, dig down into the dead spots. The grubs are usually two or three inches deep. The grass that they have damaged can be pulled up easily.

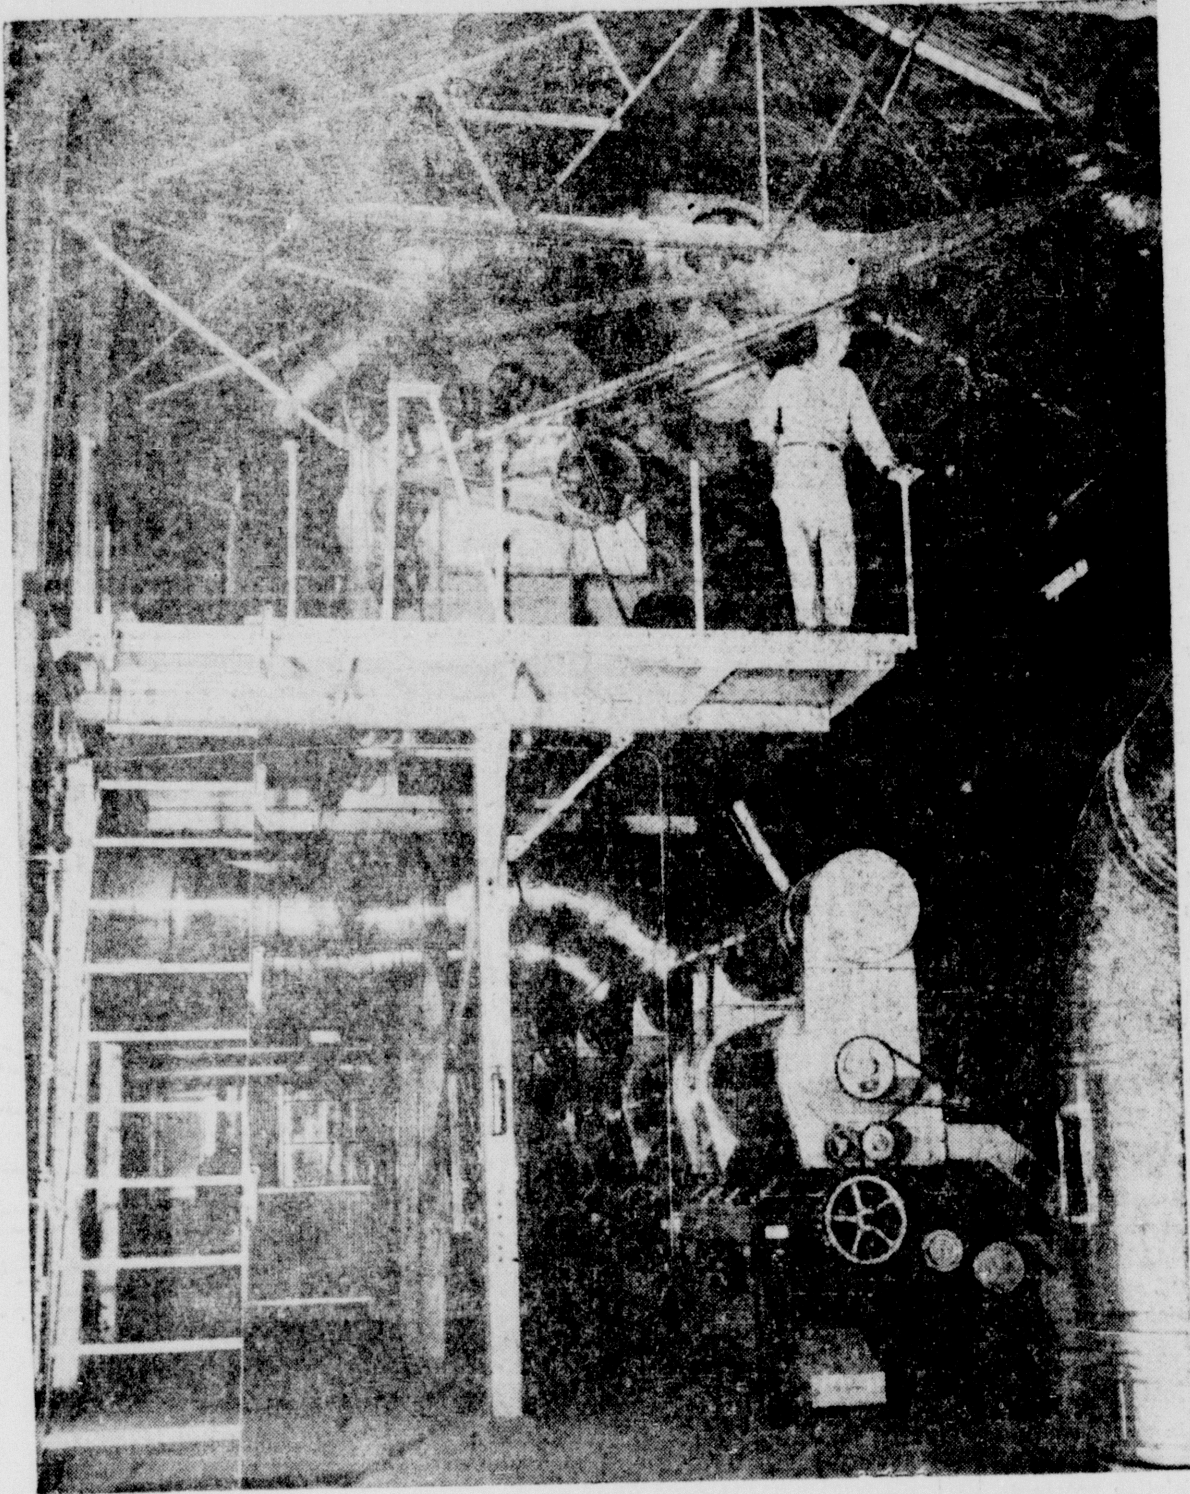

Controls for the grubs are as follows: Ten ounces of 40 per cent chlordane powder powder per 1,000 square feet of lawn. Apply the dust to the grass and then sprinkle generously with water to soak it into the ground. Chlordane spray can also be used at the rate of 25 gallons per 1,000 square feet. The spray is 1½ ounces of 40 per cent wettable chlordane powder per five gallons of water.

Additional information can be obtained from the county agent's office.

Again in '57

The Farmers of This Area Are Invited to Share in the Benefits That Come from Ginning at the Friendly, the Efficient

Hamlin Farmers Cooperative Gin

★ MANY SERVICES

Again in 1957, as in each year for the the past many years, every cotton grower of the Hamlin territory is invited to take advantage of the services and share in the benefits that have been offered cotton producers of this area since the time when the gin was founded.

★ SERVICE FIRST

We believe that at this modern gin plant you will be assured quality ginning and that you will be pleased with the service you get when you bring your seed cotton to us. Completely electrified, we are ready to go the minute your cotton arrives at the suction stands.

★ MODERN MACHINERY

As most of you know, we have one of the most modern gin plants in the entire Southwest, especially designed and constructed to serve the needs of the producers of this area. Our cotton cleaning equipment is the best, and is a big factor in getting a better sample for you.

★ EXACTLY RIGHT SPEED

Because this is late model improved machinery, we do not have to run it slowly to get the best sample. Actually we run it at exactly the right speed as determined by scientific experimentation, and because it is so engineered, this right speed also gives us higher ginning capacity.

★ Cotton Bought or Put in Loan

We are prepared to handle your cotton the way you prefer. We will buy it at top market price or will assist you in putting it into the government loan program. It will be correctly graded and sampled, as we are anxious that you get the most from your cotton.
